

Poland Pledges Strict Rule Till Order Returns

From Agency Dispatches

VIENNA - As reports of vioent clashes continued to surface, oland's new military rulers Frilay promised strict enforcement of nartial law until order is restored hroughout the country.

The new violence reportedly ook place Thursday night when iot police battled young demon-trators in central Warsaw with ubber clubs and tear gas. No injuies were reported, however.

Reliable reports said the police mashed demonstrations along at east two major streets in the capial by crowds of students and oth-rs chanting "Fascists," "Gestapo" and "Lech Walesa," a reference to the Solidarity union leader report-ally under house arrest outside Warsaw

The United States Friday urged Poland to let Mr. Walesa speak to the public and two West European leaders, Chancellors Bruno Kreisky of Austria and Helmut Schmidt of West Germany, expressed fear that the developments

seriously threatened peace. Reports reaching the West indicated that Polisb authorities were still have security problems in some areas.

Diplomatic sources in Paris said they bad information suggesting that in several regions, factories and universities oot previously affected by the crisis had been occuried by protesters.

Western diplomatic sources also said there were increasing reports that Polish workers were staging work slowdowns in some plants controlled by the army after strikers were ousted.

And a traveler who arrived in Austria from Poland said security forces had stormed at least two mines Thursday oear Katowice. But miners were still occupying two other mines in the area when he left Poland Thursday night, he . .- . aud.

Tanks Reported

The man said he saw tanks comung from the Stastic mine, where namers were later reported to have formed the U.S. Embassy in War-resumed work. He had also been saw that there were strikes in 43 told that people had been wound-

day that seven workers were killed and 39 were wounded when police opened fire on strikers at the Wujek mine at Katowice on Wednesday.

The official news agency PAP blamed provocateurs for the clashes in which the seven were killed

It said the requirements of mar-tial law, imposed last Sunday, must be "stringently observed" and it warned: "the anthorities will not retreat, for they have nowhere to retreat to ... Provocations no longer have any future. Socialism will not be overthrown."

Alcohol to Be Sold

Warsaw Radio announced that the sale of alcohol will resume in Poland Saturday. The sale of alcohol had been banned by the mili-tary government when it assumed power on Sunday.

It also said that enterprises were working normally in nearly all re-gions of the country, and supplies of milk, bread, potatoes and other food improving.

An announcement by the ruling Military Council of National Salvation-said that despite serious difficulties in supplies of raw materials, spare parts and energy, the

economy was improving. Dean Fischer, a State Depart-ment spokesman, issued the U.S. statement on Mr. Walesa, saying Poland should allow him to "speak to his countrymen and the world' to allay fears abont his welfare.

"We are deeply concerned for the leaders of Solidarity and the thousands of prisoners being beld in Poland." Mr. Fischer said. Mr. Fischer said the United States called on the Polish government to release the prisoners, whose only crime has been their attempt to exercise civil and political

He said, however, that reports indicated that many of the prison-ers in Poland were oot being treated humanely. Mr. Fischer said a high-level

U.S. Strategic Accord With Israel Is Halted

From Agency Dispatches WASHINGTON - President Reagan on Friday suspended im-plementation of a new strategic co-operation treaty with Israel and postponed some aid arrangements in retaliation fnr Israel's unilateral annexation of the Golan Heights. The decision was announced by State Department spokesman Dean Fischer, who said the United States was seriously disappointed

by Israel's action because it came in the midst of a political crisis in Poland and was taken without advance notice or consultations with the United States. In Jerusalem, a government offi-

cial said, "We are not going to be ready to react until the Cabinet meets on Sunday to discuss it." He said the Foreign Ministry would not comment, other than state-ments that may be made in Wasb-ingtnn by Israeli ambassadnr Ephraim Evron. Defense Ministry officials,

though not named, were quoted by Israel television Friday night as being "shocked and dismayed" by the U.S. decision, which also in-cludes a suspension of a U.S. commitment to purchase about \$200 million worth of Israeli-produced "forthwith." arms. It is believed to be the first such economic sanction imposed on Israel by the United States as a his country "cannot and does not accept the resolution just adoptpunitive measure,

ed," because it ignores Syria's re-fusal to negotiate and its threats Until Friday night, the Israeb government had appeared san-guine about the world reaction so against Israel. Thus the resolution far to its annexatioo move Moothe Security Council. Mr. Fischer said that Mr. Reagan has ordered Secretary of day, with senior officials expressing confidence that Israel would be able to ride out the rhetorical storm of controversy over the State Alexander M. Haig Jr. and State Alexander M, Haig Jr, and Defense Secretary Caspar W. Weinberger to halt plans for a meeting of a coordinating council oo strategic cooperation, as pro-vided by a Nov. 30 agreement with legal

Mr. Fischer said the spirit of the strategic cooperatioo agreement, signed just three weeks "obliged each party to take into consideration in its decisions the implications for the broad policy concerns of the other."

"We do oot believe that spirit moment proceed with further dis-cussions on some Israeli proposals was upheld in the case of Israel's decision on the Golan Heights,"

fense purchases of defense-related The U.S. move followed action goods and services in Israel, on auco Thursday night by the UN Se-curity Council which unanimously adopted a resolution that called Isthorizing Israel to use some FMS [foreign military sales credits] funds to purchase Israeli-produced goods and services, or on the possi-

ble use of FMS by third countries in purchase Israeli defense items and services.

A Climate of Fear Pervades 'Normalization' Process timidation, the military authorities here are "We can't talk here." says another Phlish New York Times Service

NEW YORK - Following is a letter received Thursday from John Darnton, War-saw bureau chief of The New York Times. addressed to Robert B. Semple Jr., the paper's foreign editor. Normal communications from Warsaw have been shut by the authorities since Sundar

Dec. 16, 1981

Dear Bub, At least twice in the past 24 hours the offi-cial Polish press agency has used the word normalization" to apply to events here. For Poles and other East Europeans this is a dreaded code word.

"Normalizatinn" is what happened to Czechoslovakia after a Warsaw Pact inva-Sections or as a set of a warsaw ract inva-sion crushed the "Prague Spring" of 1968. In the peculiar jargon of Communits officials, in which words can mean their opposite, it is the restoration of orthodox authority. To people it is the almost unbearably

painful process of watching the dismantlement, piece by piece, of freedom and liber-tics painstakingly won. A major part in that process is fear, and

fear, it is clear, has become of the new military Poland. (As written) It is strange; per-haps the one defining trait of the Polish "renewal" of the past 16 months was the absence of fear.

With a massive show of manpower and equipment and a calculated campaign of in-

trying to break the spirit of resistance of the workers' movement.

Letter From Warsaw

Workers movement. Tuesday evening, a caravan of 273 police cars, trucks water cannons and other hard-ware moved slowly through the city at rush hour. Thousands of onlookers were forced back onto the sidewalks, dark figures waiting on dirty snow banks and trees in the cold. It seemed a parade of brute force.

This morning at an early hour three secret policemen barged into the small apartment of a Polish journalist. They insisted that be sign a document asserting that be would no longer "act in a manner to oppose Socialism in Poland." He resisted and was bundled away. His wife pleaded with the policemen as they dragged him down the stairs. One of

as they dragged min down the stars. One of them responded, "don't worry, we'll be back tomorrow for you to sign it." The fear campaign is working in some re-spects. Already people open their doors just a crack, to inspect who is there. They play the radio loudly while talking, or set the wa-ter running—old devices from the Stalinist 1960 to full the running

1950s to foil the eavesdropper. For someone who has lived here for al-most three years, it is as if a door that was gradually opened has been suddenly sbut.

"I can't see you now," whispers a Polish friend, as he answers his door and steps into the hallway, closing it behind him. "Didn't you hear, I was detained. I just got out. I'm sure you're being observed."

friend standing in a stairwell, with a glance at a man nearby, whn said be was a taxi driver waiting for a customer. He may, or may not, have been listening. It takes a long time for fear to go away, weeks or months even, in which people slow-ly tearn that they can speak out or, embol-dened by others, write more forcefully and

honestly in the newspapers. But fear can come back as quickly as a door slamming. The full extent of the strike protest to the

imposition of martial law cannot be deter-mined with all communications down all nver the country. But in areas where foreign journalists have been able to reach, factories in the Warsaw region, what broke the backbone of the prntest was fear. The anthonines mored cars and simply waiting for darkness and curfew to unsettle the demonstrators in-

Crackdown in Poland Denounced By West at Madrid Security Talks

MADRID - Western countries attending the Conference on Security and Cooperation in Europe strongly condemned on Friday the military takeover in Poland as a gross violation of East-West détente accords.

Delegate after delegate from the United States and West European countries used the last conference session before a Christmas recess to denounce the imposition of martial law.

The 35-state conference, which has been stalled for months over military and human rights issues, will reconvene Feb. 9 for another attempt to break the desdlock and revive détente, officials said.

Western delegates said they had stepped up their criticism of the Polish crisis, despite demands from Warsaw's representatives not to interfere, because of the deteriorating situation there.

muse plan proposed Wednesday, said the Polisb situation had made premises, which will be used as the main press center for the World agreement in Madrid impossible Football Cup in Spain next June for the moment.

The Spanish delegation chief, Javier Ruperez, agreed that Poland's crisis had blocked agreement and accused the Soviet Union of a "clear lack of desire to ne-

gotiate in the last 48 hours." The Madrid conference has been in sporadic session since November, 1980. The latest recess will be the fourth. The talks were originally supposed to finish nine months

ago. "We come back on Feb. 9 with the firm determination to conclude

our work in one month," said the British negotiator, John Wilberforce. If no agreement could be reached by next March, the meeting would almost certainly be adjourned again until the autumn. The 35 delegations - the Unit-

and July. The U.S. delegate, Max M. Kampelman, condemned what he called arbitrary arrests, interference with the free movement of news and people, the use of vio-

lence against Polish workers and the attempt to stifle the Solidarity union movement All these were gross violations of the détente agreement signed by the 35 conference participants at

the first meeting on European security in Helsinki six years ago, Mr. Kampelman said

U.S. Fears Hidden Soviet Force in Poland More Than Open Action

By Don Oberdorfer and John M. Goshko Washington Post Service

WASHINGTON - The Reagan administration, following a series of high-level meetings here and abroad, has begun to come to grips with the Polish crisis by pinning the blame increasingly on the Soviet Union.

This is the significance of President Reagan's opening statement at his news conference Thursday, which went much further than U.S. public statements of the last five days in condemning imposi-tion of martial law in Poland and in placing the responsibility on Moscow.

The statement also went much further than previous public utterances by most of the European allies. Only French President Francois Mitterrand, who was joined Thursday by British Foreign Secretary Lord Carrington, has taken a strong public position, and diplomatie exchanges to this point are reported to show little sign of a

that kind can rarely be wielded effectively by a nation acting alone. They require allied cooperation and coordination.

The Carter administration learned that two years ago after the Soviet intervention in Afghanistan. After jumping out front with its grain embargo, the United States found its allies unwilling to cooperate on additional measures such as clamping down on high-technology exports to the Soviet Union, and the effort to pressure Moscow by isolating it economically proved unsuccessful.

While it is too early to know if the same thing would happen this time, there is a clearly widening divergence between the kind of strong rhetorie used by Mr. Reagan on Thursday and the far more circumspect statements of major West Enropean leaders other than Mr. Mitterrand, Lord Carrington and Anstrian Chancellor Bruno Kreisky, who on Friday called the Polish situation "the most dangerous since the end of World War IL."

As more dramatic reports leak out of Poland, European public opinion could shift, Even so, continuing uncertainty about the Soviet role would make a unified response difficult.

Mr. Martens, who is heading his fifth government in the space of three years, was presenting the program of his coalition, which groups the Flemish and French-speaking wings of the Social-Christians and the Liberals. The coalition, which holds 113 seats, was sworn in Thursday. He said the government would seek emergency powers until the until the end of next year enabling it to apply some economic measures without putting them to the assembly.

Report Says Soviet Sub Was Spying

STOCKHOLM - The Swedish chief of staff, releasing parts of his report on the grounding of a Soviet submarine earlier this year, said the submarine most likely violated Swedish territory on an intelligence gathering mission.

Gen. Lennart Ljung said that "tests have confirmed that there was a matter of kilograms of Uranium 238" aboard the submarine and that for this there was no explanation "other than it was equipped with nuclear charges.

In the 12-page document, excerpts of a more comprehensive and classified paper prepared for the government, Gen. Ljung concluded that "the submarine carried out a planned incursion of the achipelago and grounded due to a late, too rapid and quick turn." The commander of the submarine claimed that the incident had happened because of "misnavigation due to radar fault and foggy weather."

British Miners to Vote on Strike Call The Associated Press

LONDON -- Leaders of Britain's powerful National Union of Mineworkers voted, 109 to 3, on Friday to reject a 9.3-percent pay offer from the state coal board and to ask members to vote Jan. 14 and 15 on a national strike.

The last Tory government, led by Edward Heath, was brought down by a national coal miners' strike in 1974 which put the nation on a threeday working week as power supplies dwindled. Last February, Prime Minister Margaret Thatcher's government capitulated under the threat of a miners' strike and scrapped plans to close 23 of the National Coal Board's 219 pits.

Arthur Scargill, the leftist leader of Yorkshire miners and president-elect of the miners' union, said the coal board could afford more because of increased output but was being corseted by Mrs. Thatcher's tightmoney policies.

Israel Emigré Drops Bid for Post

The Associa and Press

TEL AVIV - Arye Genger, a wealthy emigré whose nomination to oversee Israel's military industry caused a protest strike by Delense Min-istry employees, withdrew his nomination Friday.

Mr. Genger, 36, said that be would not take up the senior Defense Ministry post because of threats to his family and claims that "I am a traitor and a criminal." He emigrated to the United States in 1966 durng an Israeli recession and rose to a \$200,000-a-year post as president of the McCrory pharmaceuticals chain. He did not return to Israel until this week, when Defense Minister Ariel Sharon nominated him to the senior ministry post,

Many Israelis were outraged at the nomination of a man who, born in Israel, had failed to return to fight in either the 1967 or the 1973 wars. Critics noted that, while accepting an Israeli government post, be had refused to give up his U.S. citizenship.

Prior Sees Catholic Shift Against IRA

The Associated Press

LONDON - Britain's Northern Ireland Secretary, James Prior, said Friday that the province's 500,000 Roman Catholics are turning their backs on the Irish Republican Army, mainly because Catholic Church leaders have condemned the guerrillas.

Mr. Prior, speaking at a U.S. correspondents' juncheon, declared that the IRA's aim "is no longer about uniting Ireland --- it's about Majnist domination."

The secretary said that "one of the most gratifying developments of the last few months has been the vastly different attitude of the Catholic an ever IRA." Cardinal Tomas O Finich, Catholic primate of all Ireland, declared last month that IRA membership is "a mortal sin."

Poland Pledges to Continue Tough Rule of Martial Law

(Continued from Page I) combined to create the worst international crisis in 40 years.

"The situation is very, very dan-gerous," Mr. Kreisky said. "It is, in fact, the most dangerous situation since World War II."

Mr. Schmidt warned that the Polish crisis could endanger the peace of Europe. "Not only the Poles have fear," he told parliament. "All Europe knows its peace could be at stake."

side of the coin. Because the army contains so many sons and brothers, people were reluctant to move against it."

Fear Pervades Process of 'Normalization'

The most telling scene in the capital over the past three days, perhaps, occurred yester-day morning when busloads of soldiers moved into the Polish Academy of Science to break up a strike by some of the country's most eminent thinkers. The crowd was sullen and angry as the troops led away men in rumpled suits and spectacles and loaded them into a bus. But no one even threw a snowball. Minutes afterward, a truckload of soldiers goes past and, surprisingly, some of them waved to the crowd, for all the world like liberating soldiers, not agents of repres-

One Polish journalist, sitting at a cafe and talking to a foreign colleague with a nervous glance over his shoulder from time to time, displayed the demoralization and depression that most Poles seem to be feeling. It was, he said, the intellectuals who would feel the

Trudeau Position

Mr. Schmidt condemned the imposition of martial law. He said he is on the side of the Polish workers and supported the continuation of food shipments to Poland, urging West Germans to continue their contributions for relief supplies.

Canadian Prime Minister Pierre Elliott Trudeau said Friday that if martial law prevents a civil war in Poland "then I can't ... say it is bad." Mr. Trudeau, speaking at his weekly news conference in Ottawa, also said Canada will not suspend its food shipments to Poland, as the United States has done.

"Any effort to prevent a civil war is a positive step," the Canadi-

urch sources the r land, it said the restrictions varied in different regions, with bishops unable to reach parts of their dioceses outside areas defined by the authorities.

The Associated Press reported from Bonn that Poland has opened a telex line for Western news correspondents. It was the first news communication permitted from the Polish capital since martial law was declared Sunday.

Limits Reported

It quoted one of its reporters as saying correspondents would be able to report only what was carried in the official media and what they are able to see. Interviews would not be allowed, he said. Despite emergency aid from the

West, it was clear that the crisis was aggravating food shortages. Warsaw Radio said shops in the capital could not cope with the demand for bread and potatoes be-

cause of hoarding. The radio said there should be The radio said there should be enough bread for everybody and there was no need to hoard sup-plies. Special preparations had been made so that every family could stock up enough bread for the Christmas period, it said. A Labor Ministry official told Poles Eridex that some of them

Poles Friday that some of them might have to work 12 hours a day or seven days a week to right the economy, Warsaw Radio said.

tablish a forward headquarters in the region. The commander, Lt. Gen. Robert C. Kingston, declined Thurs-day to name the nations. But Pentagon officials suggested that they

were Egypt, Sudan, Somalia, Oman and Saudi Arabia. The effort to set up a forward headquarters in the Middle East

was one more step in a long-range plan by the Joint Chiefs of Staff to establish a continuing U.S. military presence on the ground in the region, military officials said.

Gen. Kingston also disclosed that in January, 1983, his force would be under a full-fledged, unified command, like the United

States forces in the Atlantic and the Pacific. That would make the force a fully operational command, rather than a planning task force as it now is.

Gen. Kingston, who currently reports to the secretary of defense through the Joint Chiefs of Staff, said his main headquarters would remain at MacDill Air Force Base in Tampa, Fla., but that a forward group of 150 to 200 people would be stationed in the Middle East,

He said there had been some discussion of having the members

of the forward headquarters afloat on Navy ships, but he preferred to have them ashore. He also said By Richard Halloran New York Times Service WASHINGTON - The comthat he preferred storing weapons, ammunition, and supplies ashore, mander of the Rapid Deployment Force has disclosed that the Unit-

rather than on ships, but he noted that so far no Mideast nation had ed States has begun negotiations with several Mideast nations to esinvited the United States to do so. Israel has offered to permit the United States to store some war materiel, but Gen. Kingston said he had not been consulted about that possibility.

> The general also indicated that recent experience had shown that the time needed to deploy his forces in the Gulf region had been shortened slightly. He said that given adequate warning time ---four or five days notice from intelligence services - he could deploy an airborne brigade of 2,500 men in the region in 48 hours, and a full division in 10 to 14 days.

Reporting on the recent deployment of his force to Egypt, Sudan, Somalia and Oman for an exercise called Operation Bright Star. Gen. Kingston said that all four nations. had invited his force to return for more extensive maneuvers. The invitation from Oman was considered noteworthy since the Omanis had been reluctant to take part and had insisted that no more than 1,000 marines land there for no more than 30 hours.

Gen. Kingston said he would like to send a U.S. force to train in Egypt's upper Nile area in the summer, when temperatures rise to well over 100 degrees. "A desert is a desert is a desert, but that is really desert," he said.

The Bright Star exercise took seven weeks this year, involved 6,000 American military personnel and cost about 569 million, much of it to pay for transporting troops and weapons. Last year, the first

f.,

such exercise took about three weeks, involved 1.400 Americans, cost about \$25 million and took place only in Egypt.

Gen. Kingston said one of this year's problems was "an acute shortage" of American military personnel who could speak Arabic. He said he had less than 100, and wanted several hundred so that he could have them at company level. The general said he also noticed

difficulties in tactical communications among units in the field, a shortcoming that was discovered last year. "We need new communi-

cations gear," he said. He said the M-16, the standard rifle for American infantrymen, did not have enough range for the desert, where enemies can be seen at long distances. But he said he had made no recommendation about getting a new rifle.

Negotiatious Denied

Libyan Threat 'Real,'

President Says, Denies

However, Larry Speakes, the

deputy White House press secre-tary, said the president had amended his statement a few minutes after leaving the 40-minute session with reporters in the East Room.

Other Proposals

Mr. Reagan meant that he would stick to his program to re-duce income tax rates by 25 percent over three years, Mr. Speakes

"But there are other propossaid als floating around that we're going to look at," Mr. Speakes added, making it clear he was speaking for the president.

These proposals, which the ad-ministration calls "revenue eninclude increases in hancements."

Speakes said.

Mr. Reagan indicated that he would stand by his pledge to op-pose a "windfall profits" tax on natural gas production as prices were decontroled. He said, however, that he supported accelerated hifting of the price controls. White House aides and Republican congressional leaders have said that

novan.

such a tax might be acceptable as a legislative trade-off for speedier control.

The president also said he had no objection to voluntary affirmaove action plans by labor and management to expand job oppor-tunioes for minorioes. He refused to say whether Richard V. Allen would be allowed to resume his job as national security adviser, but he said that he did not think Labor

Carter Cited Mr. Speakes, the press spokes-man, said his modification of the president's statement was based on a conversation with Mr. Reagan that took place a few minutes after

the news conference. Mr. Speakes said that Mr. Reagan meant that he would stand by his income tax reductions. But the president would consider "taxes that don't violate the supply-side theory," Mr. Speakes said. This theory holds that income tax cuts have a stimulative effect on

the economy, but that some other kinds of taxes can be increased without dulling that effect.

Clerics, Laity in N.Y. Assail Cardinal's View **On Nuclear Deterrence**

By Kenneth A. Briggs New York Times Service NEW YORK - In an unusual

protest, a group of priests, broth-ers, nuns, church officials and members of the laity of the ar-chdiocese of New York have openly criticized Cardinal Terence Cooke, the New York archbishop, for asserting that nuclear deter-rence can be "morally tolerated if a nation is sincerely trying to come

up with a rational alternaov The critics asserted in a 1,000word statement being circulated for signatures that the cardinal's views as set forth in his annual letter to chaplains on Dec. 7 were "clearly contradicted by the devel-oping position of his fellow bishops" on the issue of nuclear

weapons. They referred to a statement by the 1976 conference of bishops that condemned both the stockpiling of nuclear weapons and the making of threats to use them. They further admonished the car-dinal for implying that a limited nuclear war could be waged.

In New York, the clergy and lai-ty have seldom publicly spoken ont against a position taken by the cardinal, who wrote the letter in his capacity as military vicar. List of Objections

Among the supporters of the protest is the Intercommunity to alleviate social ills. This week Center for Justice and Peace, a coalioon of the 33 major religious orders in the New York area with a combined total of 10,000 members. Sister Margaret Galiardi, the group's director, said the center's board approved signing the docu-ment and voted to prepare a sepa-rate "open letter" to the cardinal could result from a nuclear war.

the cardinal that nuclear weapons could he used in a discriminate fashion. It also said that the traditional Catholic teaching on the right of a nation to protect itself, on which the cardinal's views rely, could not be applied to the present situation because that belief "pre-

press without White House authorzation. They said that information to reports of Libyan assassination had slipped out haphazardly, prob-ably from investigative agencies where officials were familiar with teams, saying that "the threat was real" and that it was based on insome reports about the assassina-

Mr. Reagan told a news conference Thursday that it would be "very foolish" to relax recently increased security measures. "I can only tell all of you that our information on this entire matter has come from not one, but several, widespread sources," he said. "We have complete confidence in it."

The president denied that he or his aides had been the initial source for articles on assassination teams. He said: "The news, claim-ing leaks from unidentified sources, made it publie at a time when we had held this entire matter confidential for a long time because we believed that we had a better opportunity of apprehending any terrorists or terrorist squads if it was not made public. And so we're sorry that it was."

Last week, partly in response to the reported threat of assassination teams, the White House banned travel by Americans to Li-bya and advised all Americans living there to leave, A senior administration official said the measures were aimed at ending the "current lawless behavior" of Col. Moainer Qadhafi, the Libyan leader.

Skepticism Rises

Mr. Reagan's remarks were made amid rising skepticism in the press and some government quarters about the threat and administration comments about them.

Former President Jimmy Carter said recently that he had been the object of similar threats while in

sity officials are on the lookout for a student who wired himself to a small citizens band radio during a final exam so friends outside could broadcast answers to him The answers to a money and

statement.

By William Chapman Washington Past Service

WASHINGTON - Apparently propelled by fears of a Libyan assassination squad, a little-noticed bill that zipped through Congress gives the Capitol Police Force the expanded mission of protecting members of Congress anywhere in the United States.

Passed without dehate in the ad-ournment rush, it transforms the f,100 policemen from a parochial agency restricted to the Capitol and environs into one whose officers could be dispatched around the country to protect members and officers of the House and Seaate and their families when they travel.

Conflicting explanations were given for its sudden appearance. The Senate sponsor, Theodore F. Stevens, Republican of Alaska, called it nerely a "housekeeping effort" that would give the police power to move in a wider sphere around the Capitol where street crime is common, such as in the Union Station area. He denied any connection with the report of Li byan assassing

However, a House Democra who asked not to be identified said the reason was concern over re-ports that a Libyan terrorist team was being sent to the United States to assassing a sovernment index hate government leaders.

Precautionary Measure

Howard S. Liebengood, the Scnate sergeant at arms, who is the supervisor of the force, agreed that the reported Libyan threat had been a catalyst in passing the bill but said it had been planned for as long as three years as a precautionary measure in case congressmen are threatened.

Congressional leaders were Congressional leaders were briefed two weeks ago on alleged dangers from Libyans sent to kill U.S. leaders, possibly including some senators, but the details have never been divulged. Since then, Mr. Liebengood

Threat at U.S. Airport

Unuted Press International SAN FRANCISCO - Authorities closed part of San Francisco International Airport to patrol terminala in response to threats de-manding \$3 million from airlines Thursday. Airport police reported they were advised in a telephone call that there was a bomb in a luggage locker. Free Ride for Moscow?

President Reagan was cool, restrained, "responsible" in his comments on Poland Thursday, and therein lies a keen dilemma. He said the Polish Army's crackdown had the Soviet Union's "full knowledge and support" -- that much is evident -- but he stopped short of saying the crackdown was instigated and being directed by Moscow.

On the contrary, he called upon "the gov-ernment of Poland" to re-establish the conditions for internal dialogue, suggesting that Poland's freedom was "at stake" but, unlike Afghanistan's two years ago, had not yet been "lost." Although he did warn against "overt" Soviet military interference, essentially he let the Soviets off scot-free.

What was the meaning of this carefully contrived performance? The president presumably is trying to keep his policy options open and to limit his analysis to what is actually known about the unfolding Polish situation and the Soviet role in it. With the credibility he already has as an adversary of Soviet expansionism, clearly he felt it was enough for him to speak sharply about the violence now being done in Poland. He did not have to specify what he might do later on.

But there is something gross about not putting the blame where it most belongs, on the Kremlin. It is the Soviets who have throttled Polish liberty for 30-odd years (in the modern period), who applied the pressures that created Solidarity and who precipitated Gen. Jaruzelski's move - whatever the actual consultations, whatever his motives - last

Sunday. There is a practical reason to call on the Polish government to get back on the political track: to pre-empt a harsher Soviet intervention. It has the effect, however, of giving Moscow a free ride.

The food question underlines the inconsistency gripping Mr. Reagan. He has suspended the food aid due to be sent to Poland, where the deliveries presumably would feed people the United States cares deeply about. Meanwhile, he is shipping 23 million tons of grain to the Soviet Union.

There is an explanation based on tactics. Now that the Polish Army has moved, the food suspension may help pry it off Solidarity's back. Since the Soviet Army has not yet moved, the threat of a grain embargo may help keep it home. But it is not an explanation that will comfort anyone with a sense of the larger political and moral stakes.

Why shouldn't the Soviets, the really guilty ones, pay? It may be "better" for the Poles to be contending with a Polish Army than with a Soviet army: the Polish Army is likely to take fewer lives and to be sooner steered back toward politics and reform.

The rankling thing is that it is better for the Soviets, too. They are spared the unpleasantness of getting their own hands dirty and the inconvenience of suffering the costs. It is an irony, a trade-off, that bears continued close watching so that Americans will not turn out to have been tricked and the Poles ruined at the end.

THE WASHINGTON POST.

The Cry From Poland

The unofficial news now trickling out of Poland speaks volumes. The Catholic bishops describe an "entire nation terrorized by military force." John Darnton of The Times writes of a social order shattered by palpable fear. The Polish people are suffering a new kind of "atomic" attack - the isolation of every individual from every other so that in lonely desperation millions might yield up the liberties won only over decades.

The news not heard from Poland is equally revealing. Three or four days of parading his power was all that Gen. Jaruzelski should have needed to prove himself Polish first and Communist second - to show the will and freedom to persuade moderate church and union leaders to help him restore a productive order. Lech Walesa and Archbishop Glemp would then have appeared at his side to counsel discipline and nonviolence. The roads of Poland would have been thrown open so that all could observe the regime's

control, or at least the people's acquiescence. Instead, the ominous blackout continues. Even in arrest and isolation, not a single leader of Solidarity has been given terms or hope enough to be entrusted with a microphone, or even telephone. Their silence is an

to boasting about the loyalty of the security forces that finally opened fire. But for that,

he must also advertise the fact of resistance. Now the contest is for the conscience of the soldiers. Yet even if they pass his test, what can the general expect of the workers when they sullenly return to work? If they do not sabotage his machines, how well can they perform under such duress?

President Reagan has eloquently expressed America's revulsion at these events. He is right to blame the Soviet Union first of all and to eliminate the distinction that his spokesmen had been making between Warsaw's massive repression and Moscow's direct intervention.

The president was also right to declare a moratorium on economic aid to Poland until civil and union rights are restored. Warsaw Radio had begun to crow about the applause of Western bankers, whose only concern this week seemed to be the \$30 billion that Poland owes them.

The Polish economy is shattered and so is the pretense that new loans and rolling over old ones can prevent default. Aid to Poland from now on will be what it always should have been: a political instrument by which to

on the virtues of the secretary of the navy is to be taken as evidence not of his shortcomings but of

natural order of men, rulers re-quire the power and decision to de-He has transfused much energy and intelligence in the enterprise of rebuilding the fleet, which suffered as much devastation at the hands of President Carter, whose Pearl Harbor. Bot his prodigies as a shipbuilder are not the subject of this column, which addresses his striring exchange with Bishop Thomas J. Drury of Corpus Christi, Texas. Here is what happened. The eld-ers of Corpus Christi put pressure on the Navy Department to name a vessel after the city, an altogether conventional request, particularly coming from a city by the sea. The Navy acknowledged the request by naming a newly commissioned nuclear submarine the "Corpus Christi." The city passed a formal resolution of gratitude and that would have been that - except that Bishop Thomas J. Drury wrote to Secretary John Lehman to protest, on the grounds that it was not fitting to name a warship Corpus Christi One assumes that Bishop Drury is an elderly bishop, and therefore recalls, from the days when Latin was the universal liturgical instrument of the church, what exactly Corpus Christi means, which is "body of Christ." Twenty years after Hiroshima, a group of moder-nists within the Catholic Church ganged up against the use of Latin, so that the sons of Corpus Christi are propably unaware what it actuis that their city is named after. On the other hand, that knowledge is presumably not denied to the Russians, whose KGB can penetrate most secrets, regardless of how zealously the modernists in the Vatican protect them. So Secretary Lehman answered the hishop, and began by remind-ing him that naming a naval vessel "Corpus Christi" was not a historical precedent, since America deployed vessels so named during World War II and Vietman. The Braziliam Navy has a vessel called the Espiritu Santo - and so on. Mr. Lehman then reflected on the positive effects that can come from recalling the historical back-ground of American creations, which include not only submanines, but also cities. We cannot know whether the crime rate in Los Angeles would diminish if it were widely advertised that the city was named after Our Lady, Queen of Angels; but it could hardly hurt. The alternative, of course, is to take such names as "St. Paul, Minn.," and strip them of their Christian heritage; but that would be the opposite of exorcism, hardly commending itself to the bishop of Corpus Christi, who precisely wishes to remind us what the city's name is supposed to cele-Then Secretary Lehman jollied the bishop along by reminding him that wholly secular uses of saintly references are simply a fact of life, and who can change it -- as when you run into such headlines in the sport pages as "B.C. Crushes Holy Cross," or, "St. Andrews Edges Holy Spirit," As a graduate of St.

that it cannot be obligingly denied agreement in 1945 made "under-standable," even "inevitable," NATO's passive acceptance of the in the West. Wishful Thinking

With West Germany, the heart of NATO, positioning itself as an intermediary between the alliance and its adversary, what remains of the alliance? Soviet troubles — in Poland, Afghanistan and domestically - have given rise in the West to a cottage industry in the wish-ful-thinking business, a cottage in-dustry producing predictions that the Soviet empire will soon crumble like stale Stilton cheese. But what shows signs of crumbling is the alliance that was called into existence to contain the Soviet Em-Dire.

Henry Kissinger notes that many NATO nations seem to believe that their identity should be measured by their diplomatic distance from America. Increasingly, the leaders and publics of Europe and America lack the emotional attachment to NATO that once derived from personal involvement in the creative response to danger that produced the alliance. NATO nations increasingly gauge the suc-cess of their diplomacy by their re-lations with Russia, rather than with members of the alliance. And, Kissinger says, negotiations have come to be considered psychiatric

exercises for establishing an atmosphere of good will. The end of U.S. strategic nuclear superiority has meant the end of

the ability to use threats of general war to enforce regional security. Europe increasingly rejects the of nuclear

ance of all who did not actively re-DARIS - The trickle of mforsist. Gradually, competent people agreed to seek improvements with-in the limits imposed, and indulmation from militarized Poland has been enough to make two things clear. gence of their efforts persuaded

First, the coup was well prepared, even to timing. Reports from Gdansk show it began before Solidarity voted its last resolutions. Some people named as ar-rested by Radio Warsaw are actually in the United States. The list any in the Onited States. The list was an old one. Soviet "non-inter-ference" is a myth. Gen. Wojciech Jarmelski himself said he was act-ing to protect Polish sovereignty, a barely welled admission of a Soviet ານໄປເກັດແລະແ

Second, the military dictatorship's promise of return to "renew-al" of Polish society is empty. Of guish between "reasons of state" and feelings. There should be no damper on widespread voicing of outrage. The more protests the betcourse the country cannot go back to pre-1980. It collapsed under 35 years of misrule. The regime's unwillingness and inability to deal with its people without force has been proven. Solidarity's early de-mands were modest, escalating when rulers showed they would re-spond to nothing but the most insistent pressure.

But neither have the generals, mostly Soviet trained, brought room for reconciliation. Massive arrests, the banning of organiza-tions that had nothing to do with the union, such as Catholic groups and the association of university rectors, reveal a will to destroy all

popular representation. When, and if, the military "ter-When, and if, the military "ter-minate" their rule as pledged, to whom will they hand power? The fact that organs of repression re-mained fully in place, untouched by Solidarity's achievements, is now starkly highlighted. The union and its supporters built a parallel structure that was dazzling and aroused profound echoes among the people, but the oppressive power was never dismantled.

There remains the Communist Party. It has been deeply shaken, self-purged by defection of the relarively moderate faction, purged of a few discarded and discredited in-competents. Never before has a ruling Communist apparatus been taken over by its uniformed com-

rades. But where can that lead? It appears that Jaruzelski's idea of "renewal" is simply renewal of the apparatus, replacement of one nomeniclatura (the secret list of people eligible for responsible jobs) by another more vigorous, but with the same goal of monopoly power.

Janos Kadar did manage a fairly effective renewal of his Commu-nist Party after Hungary's 1956 revolution. But there are two key reasons why Jaruzelski is unlikely to do as well. One is just time. An additional quarter century of Pol-ish experience has killed illusions about the system's capacity for re-

keep encouraging evolutionary change in the Communist system.

The catastrophic failures of that system threaten not only the well-being of the Polish people. They inspire brutalities that jeopardize Poland's relations with all civilized peoples and, mevitably, the peace of Europe. THE NEW YORK TIMES.

Irish Visitors

The State Department has either a confused policy or a double standard with regard to visas for political figures from Northern Ireland. It is now in the position of having refused a visa to Owen Carron, a Catholic member of the British parliament, while continuing to honor a visa issued earlier to Ian Paisley.

Both men are leaders of the extreme wings of their religious groups in Ulster. Is one then more "likely" than the other "to engage in activities which would be prejudicial to the public interest, or endanger the welfare, safety or security of the United States"?

Everyone knows Ian Paisley. We see him regularly on our TV screens sputtering and raging, arming civilians, threatening and challenging anyone who wants to take the smallest step toward reconciliation in Ulster. We do not know Owen Carron so well, a man who was campaign manager for Bobby Sands, the IRA hunger striker elected to parliament while he was in prison. After Mr. Sands' death, Mr. Carron ran for his seat and won. He encouraged the hunger strikers and, according to the State Department, thus condones the IRA's terror tactics.

While some in Congress have played to what they mistakenly believe to be the wishes of Irish-Americans and have all but embraced the IRA, other members have had the courage and the good sense to speak out strongly against fund-raising efforts that really finance terrorist activities. These sensible people speak not just for the large majority of Irish-Americans, but also for this country

'as a whole, in condemning any American support for terrorists in any form.

Surely, that is the policy of our government. But in carrying out that policy, is it necessary or advisable to keep out of the country persons who represent extreme positions but who are not themselves terrorists? Two other reasons have been advanced for keeping out Mr. Carron. First, his entry to the United States would offend the British and the Irish Republic, though neither nation asked that he be excluded, and he is free to travel in both of them. Second, he would be a sympathetic fund-raiser for the IRA. But Bernadette Devlin McAliskey, herself a former member of the British parliament and the recent victim of attempted murder by the Ulster Defense League, is better known in this country than is Mr. Carron. And surely the families of the hunger strikers who died are more sympathetic advocates of the IRA cause. Yet both Mrs. McAliskey and these family members were granted visas.

Why were their visas granted while Mr. Carron's was denied? And, more important, why has Mr. Paisley been granted permission to visit while Mr. Carron has not?

The American people are far less susceptible to the ravings of extremists than the State Department apparently believes. One close look at Messrs. Paisley and Carron would probably do more to reduce the enthusiasm of their supporters than would excluding them entirely. Let them both in. Let us see for ourselves.

THE WASHINGTON POST.

Dec. 19: From Our Pages of 75 and 50 Years Ago

1906: Maltreatment of Japanese

WASHINGTON - President Roosevelt's Japanese Message is regarded as getting away from the school issue in California and raising the general issue of maltreatment of the Japanese, which comes within the province of the treaty. The report deals with the maltreatment of Japanese because they were Japanese, with boycotts of restaurants, blackmailing of restaurant keepers who had to pay to have the boycott withdrawn, and a general harshness of action similar to the Chinese disorders two generations ago. One of the most distinguished scientists in Japan, Dr. F. Omiori, who went to San Francisco to study the causes of the carthquake, was stoned in the streets by hoodlums.

1931: Jack Diamond's Luck Ends ALBANY, N.Y. -- Gangland has caught up with

Jack Diamond. He was found in his bed in a lodging house in a quiet section of the city, three bullet wounds in his head - dead. The gangster's execution came 10 hours after the verdict of the jury that acquitted him on a kidnapping charge --- his 24th victory in a long series of tussles with the law. Three times before, rival racketeers had pumped lead into Diamond, but the frail, consumptive gang leader had survived. His luck, which gave him the title "Clay Pigeon of the Underworld" and "Big Shot --- At," failed to hold this time. An undetermined number of gunmen put him ou the spot after he celebrated his acquittal by a drinking party.

theme that dedie this issue: that naval ships and even military service are somehow profane and less worthy of association with the Sacred Name. than, for instance, the city itself. I am sure that the real significance of the name of our submarine, suggestive of unity and peace among men, will be reflected in the profession of her commander and crew. They recognize that their es sential mission is to keep the peace. A noble, ethical and virtuous mission fully recognized m

traditional church teaching." The bishop probably wishes he had been hit by the submarine, rather than its commander. Let us pray for him, as we do for peace. 0/981, Universal Press Syndicate.

Letters

Vindication Concerning the report (IHT, Dec. 15) correctly stating that Swiss authorities have dropped charges against me stemming from my arrest in Zurich on April 10:

It was the state prosecutors office who announced that all charges against me were being dropped. Those charges were dropped due mainly to a lack of evidence and had it simply be a lack of purisdiction. Had it simply been a question of jurisdiction, the state prosecutors office would have made that an-nouncement seven months ago. When they began what turned into a lengthy and very thorough inves-tigation. The result of that investigation is that I have been completely vindicated of the charges brought against me. DAVID THIEME.

Monte Carlo.

Papandreou's Debut

Flora Lewis gives a one-sided view of "Papandreou's NATO Debut" (IHT, Dec. 12-13). What she lightly passes as "past errors" include an ongoing tragedy in Cyprus. It is time that Americans come to realize that their "vital strategic interests" are often translated into unspeakable tragedies for entire nations,

into his "bargaining position" and Lewis should not term "noisy" his plea for justice, nor his effort to safeguard Greece from further ag-gression by its NATO ally, Turkey. Greece's NATO allies should act to prevent further "errors."

Paris.

Your editorial on Peking's over-tures to Taiwan ("Peking's Offer to Taiwan," IHT, Oct. 1) overlooked an important question: Do the native Taiwanese, who consti-Holy Spirit." As a graduate of St. Inte 85 percent of the population, Joseph's College in Pennsylvania, consider Taiwan part of China?

defense, and refuses to invest sufficiently in conventional forces to make any other war-fighting plan credible. As Kissinger says, if peace is the sole goal of NATO nations, the alliance lacks the political coherence that is a prerequisite for its continuation, and the future belongs to the power that is prepared to threaten war.

NATO is in imminent danger of becoming as ornamental as most modern monarchs. It has been said that modern monarchs are to life what illustrations are to books. But illustrataons are pleasant luxuries and do no harm, which can not be said of an alliance that perpetuates delusions of security. 0/98/, The Washington Post.

In your statement, you implicitly assume that the government on Taiwan does represent the people who live there. We suggest that this is not the case. Martial law has been in effect for 32 years, while the two million Nationalists kept their political and military system geared up for the impossible dream of recovery of the mainland.

The native Taiwancse have been systematically excluded from decision-making positions. Only some t7 percent of the members of the legislative Yuan were actually elected by the people of Taiwan. The rest has kept up the pretense of representing mainland China. True opposition parties have never been allowed on the island and anyone advocating self-determina-tion or Taiwanese independence landed in jail or was executed.

We believe that the only just solution is one which guarantees that the Taiwanese themselves have the final say in determining the future status of their beautiful island.

litical freedom. tions between China and Taiwan The Catholic unions are perhaps the more aggressive in the fight should wait until Taiwan has a political system that truly represents against the free-market. which unites Communists, Catho-lic and Socialists in a single labor organization. When the news of the Polish events reached Rome, the Christian trade unionists immediately called for a work stoppage, general assemblies in the factories and mass demonstrations to protest the military putsch. The Communist group, which is by far the larger and more powerful union, retort-

ed: "Let's be careful with the demonstrations, this is not a military putsch, Jaruzelski is the head of government." They gave in, finally, and joined in the demonstrations throughout Italy. But one notes a deep sense of uneasiness in their behavior. Although their indignation for the Polish repression is sincere, many begin to realize that they are caught in an ideological trap. Both the Catholic and the Communist unions have for years been systematically assaulting what remains of free-market economy in Italy.

They want to mix the devil and the holy water, to made compatable economic totalitarianism with po-

litical arena. The Socialists do the In spite of their apparent unity, contrasts are even greater within the Federation of Trade Unions, same. To the left of the Communists, a number of small parties and extreme leftist movements with a confused ideology but with a following among the young workers — put Jaruzelski and the Polish Communist Party into the

same basket and lead the marches

against "tyranny," which they identify with Communism. What is left, then, of Eurocom-minism, which wants to make conflicting concepts compatable? The Communist rank and file has been indoctrinated in the belief that a state-run economy is instrumental to the advancement of the working class. Experience proves that a state-run economy leads to a state-run society and to the supres-sion of individual liberties. But this is not clear to the Italian Communists. For them, tyranny is asso-ciated with Stalinism, not with Communism.

The shock on the Communist militants and trade unionists by the crackdown in Poland is due to the sudden realization that what the Polish workers universally despise is the Polish Communist Party, not an abstract conception of

Who will benefit from the disarray that the Polish crisis is provoking in the strongest Communist Party of the Western Hemisphere? Italian internal politics obey laws that are so unpredictable that a rational forecast, for the moment, is

INTERNATIONAL HERALD TRIBUNE, SATURDAY-SUNDAY, DECEMBER 19-20, 1981

Infant Death Rate Still High in Poor Nations

By Cristine Russell

· Pron

Washington Pass Service WASHINGTON — Worldwide, "roughly one child out of every 10 does not live in see its first birthday," according th a Washington-based international research group. While most advanced industrial countries have witnessed "a continuing steady decline" since Warld War II in infant death rates, the progress is trusted among developing countries

progress is tuxed among developing countries, according to Kathleen Newland, author of a report released this week by the Worldwatch lostitute.

The disparity between the world's highest and lowest rates is probably greater now than ever before," she warned, particularly since the infant death rates in some of the least developed countries are "as high as any in history." The infant death rate is usually expressed as the number of babies out of each 1,000 born alive who die before the age of 1. Worldwide, this is estimated to be 97 per 1,000.

Low End

Ms. Newland, 30, who is a senior researcher at the institute, said the low end of the range can be found in the "most deprived" people in the world, particularly in sub-Saharan Africa, where infant mortality rates are as high as 200 -or a death in one out of every five babies.

In contrast, she wrote, in the "wealthy and egalitarian societies" such as Sweden and Ja-

egailtarian societies' such as Sweden and Ja-pan, fewer than 10 per 1,000 babies die. In North America and most of Western Eu-rope, infant death is slightly higher, with the U.S. rate, which has been declining in recent years, now falling below 13 per 1,000 births. However, Ms. Newland said, the highs and lows do not simply reflect poverty and afflu-ence. Poor countries such as Sri Lanka and

ence. Poor countries such as Sri Lanka and China have relatively low infant mortality rates while richer ones, such as Libya and Sau-

di Arabia, have high levels. In addition, U.S. cities such as the District of Columbia and countries such as Brazil and the Soviet Union recently have recorded increases in their infant death rates - signs, she contended, of "a development process gone astray.

'Needs of People'

In the District, the infant mortality rate in-creased from 22.2 deaths per 1,000 births in

1979 to 24.6 last year, a rate about twice the national average and the worst for any metro-

While gross national product and average income reflect economic health, Ms. Newland

said, infant death rate better measures the "overall level of well-being in a country" and a

units are around the major cities. But even with 20,000 Soviet troops

society's ability to meet "the needs of its peo-

"High infant mortality is associated with certain social problems that may persist even in the face of rising per capita income: envi-ronmental contamination, lack of education. discrimination against women, poor health ser-vices," Ms. Newland said.

Because there are so many possible causes, "there is no quick fix for reducing infant mor-tality," she concluded, particularly since the dominant problems do not easily yield to di-rect medical action. But "health education, more even distribution of food resources, improvements in sanitation, enhancement of the status of women and restructuring of priorities in public spending can all pay handsome divi-dends in infant survival," she said.

Smoking and drinking by pregnant women are of particular danger to their mborn infants.

Women who have large families — particu-larly more than four children — in a short penod of time also experience more infant deaths

Ms. Newland added that the level of a mother's education affects the child's chance of survival, with the poorly educated less able to respond to threats posed by the physical environment

thieves' market.

ernment songs that she sang on television and an army major were

on Nov. 11 as they moved through the crowded Shor Bazaar, or

Early the next day, a diplomat reported, a group of 30 armed reb-

els marched through the streets of a suburb during curfew hours, fir-ing weapons, shouting anti-govern-ment slogans and daring the au-

Soviet Afghan Force Put at 110,000

politan area in the country.

By Sanjoy Hazarika New York Tumes Service KABUL - In the two years that Soviet troops have been in Afghan-istan, their numbers have m-creased from the original 85,000 to 110.000, deployed in 11 divisions around the country, according to a senior Asian diplomat here.

The diplomat, who has traveled widely in the two years that he has served here, said that Western governments had steadfastly underre-ported the oumbers of Soviet soldiers. Last spring, a U.S. diplomat in Kabul reported a sudden jump in the size of the Soviet forces to about 110,000, but this was quickly denied by the U.S. Defense Department

Although the exact oumber of Soviet soldiers in Afghanistan is a matter of debate, diplomats generally agree that the Russians bave not been able to curb the widespread insurgency despite a costly commitment. The diplomats say that Soviet losses have been significant and painful.

"Since the Second World War, the Russians have oot committed

Afghanistan for so little in return," the Asian diplomat said. He said that sifting through re-

ringing Kabul, the capital, the Russians have failed to crush the guerrilla resistance in the city, ache said that stiting through re-ports from hospital and military personnel indicated that 5,000 to 6,000 Russians had probably been killed in the fighting. He said that 12,000 tn 15,000 had probably been wounded or become sick since the military intervention he cording to a diplomat from a nonaligned country. Speaking of the Soviet counterinsurgency efforts, the Asian dip-lomat remarked, "They have not overawed the Afghans with their bombings and stratings — their first major exposure to guernlia

since the military intervention be-gan Dec. 26, 1979. There has been very little evidence available about the number of Soviet casualties in Afghanistan, combat has found them wanting." and military analysts in London sharply disagreed last summer in their estimates. Some said that fewer than 1,000 Soviet soldiers had lost their lives, while others

placed the number of dead at more han 5,000. The Asian diplomat, other for-eign experts and Afghan sources agreed that there had been major, though sporadic, fighting between the insurgents and Soviet-support-ed Afghan forces in 20 of the country's 29 provinces. Since the insur-rection is highly decentralized, with small rebel bands fighting on their own, there is no information For the last two years, the guer-rillas have regularly killed mem-bers of Afghanistan's ruling party.

Businessmen and other Afghans told of reports that some Soviet soldiers were copying the insur-gents and stopping trucks bringing produce to the capital. The Rus-sians were said to be demanding money and goods from the drivers

The election of François Mitterrand and the subsequent Socialist victory in the French parliamentary elections clearly mark an important turning point for the French

February 8 and 9, 1982 in Paris

economy. With the cooperation of the new Socialist government, the International Herald Tribune has organized a conference designed to help senior executives of foreign companies judge how the new administration's policies will affect their company's activities and investment in France.

Prime Minister Pierre Mauroy will open this meeting on "New French Economic Policies," to be held February 8 and 9 at the Intercontinental Hotel in Paris. The program will include presentations by Jacques Delors, Finance Minister; Michel Jobert, Minister of Foreign Trade; Michel Rocard, Minister of Planning and Regional Development; Nicole Questiaux, Minister of Social Policy; Pierre Dreytus, Minister of Industry; André Chandernagor, Minister delegated to the Minister of Foreign Affairs, in charge of European Affairs; and Laurent Fabius, Minister delegated to the Finance Minister, in charge of the Budget, as well as Jacques Attali, Special Counsellor to the President; Bernard Attali, President of D.A.T.A.R., the French government's regional development agency; Christian Goux, Chairman of the Economic and Finance Committee of the National Assembly, and other senior government officials. André Bergeron, Secretary General of the "Force Ouvrière" trade union, and chief

executives of Airbus Industries, Ford France, Matra, Rhône-Poulenc, Sony France and three major banks will provide additional viewpoints on various aspects of doing business in France.

Each presentation will be followed by a question and answer period, and simultaneous French-English translation will be provided at all times.

To register for this exceptional international conference,

Guy Le Querrec's "Elephants in Front of the Eiffel Tower," 1979.

A Christmas Calendar Around the World

by Glenn Collins

T EW YORK - Christmas travels well, and it can be a time of jolbty

prefer to stand in the special sections close in the Pape. Tickets are available from the Prefettura della Casa Pontificia, which is headed by Monsignor Jacques Martin, a French bisbop. To get to his office, go through the bronze doors of St. Peter's and look for the building on the right with the great staircase. The pre-fettura is on the first floor. In getting tickets, it helps to have some kind of introduction - fnr example, from your local church.

'Paris Magnum': Too Soft a Focus

by C.G. Cupic

ARIS — Forty years ago five young men perfected their art as photogra-pbers in war theaters throughout Eu-World War II, the friendship forged during those battleground moments turned into a professional operation in the form of a cooperative named after the giant hottle of champagne that was an inevitable accessory at their meetings. Robert Capa, a Hungarian; Henri Car-tier-Bresson, a Frenchman; George Rodger, a Briton; David Seymour (nicknamed Chim), a Pole, and William Vandivert, an American, were the founding fathers of Magnum, now the world's best-known photo agency. Today, the cooperative, with chapters in

Paris and New York, is celebrating its 35th anniversary with a major exhibition, "Paris Magnum," in its home town at the Museé dn Luxembourg until Jan. 17. The sbow, which is co-produced by United Technologies, a U.S. company, and the Freneb Ministry of Culture, will later tour Europe.

Unfortunately the exhibition somewhat contradicts the Magnum philosophy of m-depth photojournalism. This is no profound study of Paris, but often the stereotype image of it loving couples and famous intellectuals, free-dom-loving celebrations (after the Liberation in 1944) and rebellious spirits (1936 and 1965), little old ladies and colorful gents in the city's parks and cafes. Why do the 1968 pictures, for example, depict student rioting but fail to show any of the classroom moods and situa-tions that led to it?

Apparently the photographers were asked to contribute pictures of their choice to the exhibition, and just about everything that every-body sent seems to have gat in. The result is intense crowding: regarded from a reasonable distance, the unblended blends intn confusion. Big pictures, perfectly enlarged, are cramped side by side, and seldom go together — a nota-ble exception being the two pictures of the im-augurations of Valery Giscard d'Estaing in 1974 and François Mitterrand in 1981. The organizatinn is also at fault in destroying continuity: Pictures of the 1968 upbeaval are scattered, as are phntographs of the Liberation by the Allies.

With the accent nn giant blowups, the show has managed to give some pictures unsuspected qualities, but one leaves with the impression nf a glossy end-of-the-year company report.

However, for some members of the Magnum cooperative the exhibition is a triumphant sentimental journey. "It's a thrill in be back in Paris for this show," says Rodger, the nnly founder who is still an active member. "It brings back a lnt of fond memnries from the times we started the whole thing; also, the longing for Bob [Capa], Werner [Bischol] and Chim, whn aren't bere any more but whose presence is well alive with those who knew them.' Capa, who once said that be "always wanted to be an unemployed war pontographer," was killed by a land mine in May, 1954, just before the armistice during the French-Viet Minh war. Bischof, who joined Magnum in 1949.

died in a car accident that same week in South America, while Seymour was killed during the Suez war in 1956. Vandivert left the cooperative after its first year and Cartier-Bresson ended active membership in 1966, but continued to contribute.

Herald Tribune

ued to contribute. The main reason for creating Magnum, be-sides continuing the wartime friendship, was to keep control of the photographers' work. "Most of us worked for Life magazine and were fed up with people from New York tell-ing us what to do," Rodger explains. "We wanted to have the ownership of our negatives, to see that our pictures were used in their proper context. to do our own bookkeeping. to proper context, to do our own bookkeeping, to be the owners of our pictures. We also wanted to do the in-depth work. We did not want to be sent on a few bours' notice to all the trouble spots in the world. Money was important, but it was also important that we feel satisfied with our work. We wanted to know our subject well, even be part of it. Once the agency was set up, we divided the world, like gods — Bob got North America, Chim Europe, Henri India and China, and I got Africa."

Magnum's first years were difficult finan-cially. "Every time we met we thought that it was the last time with a bottle of champagne as our mascot, but with Bob's moral resources, ideas and connections, and Chim's tireless work, we always pulled through," Rodger con-tinues. "Our office was a friend's appartment - negatives and files all over the place. We coopted new members, we expanded, did a lot of traveling and were very happy."

Magnum pictures are used by bundreds nf newspapers and magazines around the world, and its members have published more than 1,000 books. Today, with 32 members, Magnum tries to continue the spirit of its founders. "Althnugh photojournalism photography has evolved and changed, and the influence of television has made our main clients, the great magazines of the '50s, disappear, we continue to be a group of individuals, each expressing our perception of the world, and the role of the image in it," explains Guy Le Querrec, one of the younger members. "The development of the art market in pho-

tography also changed our attitudes," he con-tinues. "Some of the photographers have stock-market prices, some are very much in vo-gue and sell well, while nthers are not so money- and fame-oriented. The public has changed too. They aften want to see beyond the picture, search for answers that a particular pho-tograph aroused in them. Others continue to be concerned with different shades and brilliance of blood coming from a dead man's

body." These questions are among many topics of conversation at the annual meeting of Mag-num members. "Coming from different counwith dufferent social D

Marc Riboud's "Eiffel Tower," taken in 1954.

with, a sampling of season's doings, based on suggestions by correspondents of The New York Tunes:

Nuremberg

Although you can sample the hubbub of the extraordinary West German open-air Yuletide fairs in cities acress the land, you might want to try the Christkindlmark1 in Nuremburg. The tradition began there, after all, in 1631. Last year, two million visitors partook of its brass-band concerts, its roving carolers and its stands covered with green-and-white-striped awnings offering a staggering variety of goods.

There are rag dolls, band-carved wooden animals, delicately carved creches. Christmastree ornaments - did we forget to say Christmas trees as well? There are steaming spicy sausages and candied fruits, there are chestnuts and Christmas cookies, there are stallen and there are lebkuchen - the Nureniberg gingerbread eakes sweetened with honey, which have been produced there since the 13th century. And naturally, there is marzipan in every shape, form, pattern and extrusion imaginable, especially manifest as pink pigs that symbolize good luck.

And yes, there is beer.

Manila

Travelers who yearn for some of the morefamiliar manifestations of Christmas will not have to search far in Manila. There are Yuletide displays in the department stores of the Makati business district and Filipino Santa Clauses ho-ho-ho'ing at children in the lobbies of the big hotels, along with Christmas choruses and gangerbread tableaus.

Nevertheless, those who seek a more meaningful Christmas might consider getting up way before sunrise and taking a 15-minute drive south of the airport to the little town of Las Pinas. There, at 4 a.m., they can sit on one of the hambou pews inside the dimby lit church of Las Pinas, and hear mass by Father Mark Lesage or Father Leo Renier, the parish priests. In the dawn quiet, they can listen to the boys' choir sing hymns to the accompaniment of a hamboo organ.

The early-morning masses continue through Dec. 24 in the small church of gray stone, which was recently restored by the Filipinu ar-chutect Francisco Manosa. Afterward, in the church patio, churchgoers can sample native rice cakes, exconut dumplings and corn pud-ding - all customarily taken with the native ginger drink, salabat, or with thick Spanisb chocolate.

Nearly every church in the Philippines holds services on Christmas Eve, and most miduich Filipino families bold dinner reunions after the mass. These are well worth auending, if you can get an invitation: They are joyous and conject an invitation: they are joyous and crowded affairs, since the average extended family may number a hundred or so, all of them joining the Christmas celebration.

Rome

It's Christmas Eve, you're in Rome, and, since you believe in the aphorism, you want to do what the Romans do. That means having the cutraordinary experience of seeing the Christmas Eve mass celebrated in St. Peter's Basilica, where the public is welcome. Travelers must arrive early, however, to have a chance to see Pope John Paul II.

Because space is limited, and for security reasons, tickets are necessary for those who

The morning after, on Christmas Day, you might head to the fair at Piazza Navona, with its Bernini fountains. Not only is it a festival of nougat. Christmas candies, carved nativity figures, toys, records and books, but more important, it's just about the nnly place where you can buy anything at all for the next few days. Shops, coffee-bars and other essentials of Roman life are all closed until Monday -Dec. 28 --- and the city will be strangely devoid nf traffie and bereft of cosmopolitan chaos.

Madrid

Only one of the satisfying things about Madrid is that you can celebrate Christmas in January, should you not have had enough in December. The premier winter holiday in Spain isn't Christmas, but Three Kings' Day, on Jan. 6. In Madrid, and in nther major Spanisb cities as well, grand parades celebrate the eve of Three Kings' Day, with floats and such other amusements as costumed kings throwing candies to ebeering children along the way.

There are, of course, celebrations on Christmas Eve, too. In Madrid, Dec. 24 is called Nochebuena, and in the Plaza Mayor gypsics and local tradesmen set up stands selling crèches, toys and noisemakers for children, as well as Christmas trees. It is a rintous place on the nights of the week preceding Christmas, but especially on Christmas Eve, when the somewhat-pagan side of the Latin Christmas emerges as young people center their revely on the Plaza Mayor. This is the same plaza where, at midnight on Dec. 31, the citizens traditionally eat 12 grapes - one for each stroke of the clock as it ushers in the New Year. And then on Jan. 6. it's time for Christmas again.

Jerusalem ·

Although most tickets to the Christmas Eve services in the Church of the Nativity have long ago been reserved, travelers who haven't been able 10 get one will be able to watch the proceedings on a huge television screen mounted in Manger Square. The square be-comes something of a gathering place for tourists, and in fact, the screen is furnished courtesy of the Ministry of Tourism, which also runs shuttle buses to and from Jerusalem.

December 24 is also the day of the great ecclesiastical processions, the largest of which begins at noon. Then, the Latin Patriarch, wearing a purple robe, leaves his residence in Jerusalem, walks to the Jaffa Gate, proceeds hy car to the tonib of Rachel in Bethlehem, and goes to Manger Square, where he is met by Christian Arab Boy and Girl Scout marching bands. Another notable afternoon procession goes from St. Catherine's church to the Grotto of the Nativity, where a service is held.

Although there is no dearth of things to see in the Holy Land, it is the Christmas worship services that are the focus for most Christian visitors. Some other possibilities: SL George's Anglican Cathedral, on Nnblus Road (from which buses leave at 7:30 on Christmas Eve for the Bethlehem service), has its own midnight mass and carol service at 11:30. Among its services on Christmas Day is an 11 a.m. service with earols and a sermon in English. The YMCA on King David Street has scheduled a carol service for 8 p.m. Christmas Eve and n curillon concert at midnight. 1981 The New York Tunes

.

different educations, we often disagree on just about everything, but always, always agree on the basics — a freedom far everybody to do his own kind af photography," concludes Le Querrec.

Perhaps that's the reason Magnum members are excellent individually but do not seem to be at their best in this group exhibition.

Switzerland Made Easy For Cross-Country Skiers

by Mavis Guinard

AVOS, Switzerland - At the drop of the first snowflake, this pointedly Alpine skiing nation is ready to let in a growing army of cross-country skiers on low-cost package deals. Zurich intends to collaborate by sending nn their cumbersome gear direct from airport to mountain hideaway; Geneva will cause some delay-ing action by accepting luggage and skis only at the main railway station. Meanwhile 3,500 instructors are training to keep skiers busy on the pistes — and the discos. Although downhill skiing remains more popular, there are places where the rauo is

now 40 percent cross-country to 60 percent Al-pine skiers. About 250,000 Swiss skiers have turned to the quieter sport and most resorts have surrendered to the challenge that came from the north by opening up or increasing the mileage of cross-country trails. They now total 3.000 kilnmeters.

Even the most vertical places perched high above the timberline have found ways to go flat: Trails have been conningly contoured around the steepest slopes. This means a crosscountry skier may occasionally have to negotiate a stiff passage. The expert finds that this adds a few thrills, the beginner may prefer to take off his narrow skis.

Traditional resorts are being rediscovered. The nnes that developed from small villages have acres of pastures ideal for snow rambles. Multiple ski centers draw the crowds while, away from the après-ski fever, simple places link up to the grid of trails of their bigtime neighbors.

Just as they have resisted tolls on the freeways, the Swiss are reluctant to pay fees for trail usage; the mountains are here for every-one, they like to say. More and more people feel, however, that cross-country skiers should contribute to track maintenance just as downhillers pay for lift rides. Ski associations are But so far, even on the most manicured

track, you just step into your skinny skis and go. Follow the yellow markers. On touring trails, they show a skiing figure; numbers give the distance to the next destination. On loops, arrows bear a triple LLL; numbers refer to the distance covered since the starting point. Al-ways travel a loop in the advised direction. Not only will the Swiss tsk! tsk! you for being in the wrong lane, but any warnings of danger such as avalanches will be posted in time th allow a skier to return safely in the right direc-

Triangles with a large exclamation point warn of road crossings, narrow paths or such hazards. At the start of a loop, there is usually n map of the trail but - unlike the practice in some countries, nutably the United States -

· · · · · <u>- ---</u>····

there are no signals to rate its difficulty. When in a new area, it's wise to check on trail conditions at the local tourist bureau, buy a map or

survey the terrain in ski class. Following is an arbitrary selection nf very different spots. Five or six days of ski instruction, lasting from two to four hours a day, are included in most package deals. The prices qunted are the minimum in the area for a seven-night stay at half-board per person in n double room with bath. Several resorts toss in extras like the use of the ice-skating rink, sauna, swimming pool and a fondue evening. The offers naturally are for the non-peak periods - never, never over the Christmas, mid-February or Easter bolidays. The Grisons, in the easternmost tip of Swit-

zerland between Italy and Austria, have the most snow for the most time. Davos, at 156 meters' altitude, is the place where all the fun started: Arthur Conan Doyle literally wore the seat off his tweed trousers here to prove that skiing had a inture. Now this winter sports center is becoming a cross-country mecca with its 70 kilometers of undupliceted tracks that skirt past the busy ski town into the fields or side valleys under downhill boulevards like the Parsenn. From December to mid-April, Davos "cross-country white weeks" start at 465 Swiss francs (about \$280). Contact the Tourist off-

ice: CH-7270 Davos; tel: (083) 3.51.35. Only a snowball's toss from St. Moritz's spiffy botels and fabulous downhill circuit, Samedan is n dreamy little place and its medi-eval stone houses, with frescoes and quaint windows, are set in the midst of Switzerland's largest web of cross-country trails. At 1,720 meters' altitude, trails wander over 29 kilometers. A week's package bere costs 483 francs in December, January and March. Tourist office: CH-7503 Samedan; tel: (082) 6.54.32.

Every year, 10,000 skiers come to this area for the challenge of taking part in the Enga-dine Marathon. From its start at the edge of a frozen lake, this citizen's race strikes out for 40 kilometers. During the season, non-marathon types can test themselves on parts of this run that connect with the touring trails. The Rhaeuan railways chug along the whole valley, nev er ino far for a tourer to return in comfort. The sporty village of Zernez, at the marathon fin-ish line, claims to connect to 100 kilometers of rails bordering the Swiss National park at 1,470 meters. From January to March 13, the rate bere is 348 francs. Tourist office: CH-7530 Zernez; tel: (082) 8.13.00.

Einsiedeln, a 40-minute drive from Zurich, is a culture spot famous for a Benedictine Abbey and priceless manuscripts. Its frozen marshes at 900 meters offer the most Nordic conditions found in Switzerland. Alois Kalin, an Olympie gold medalist, runs the cross-country training school and insists on the perfect grooming of

Don't Just Sit There, Staring Vacantly — **Take the Burnout Test**

T EW YORK -- Increasing numbers of people complain of burnout: a long-term sense of futility, exhaus-tion, loss of control, boredom, frustration, loss of motivation, anger, depression, lack of feeling and inability to make decisions Now a psychologist and expert on stress management has devised a test for the syndrome.

What causes burnout? "Prolonged negative stress," says Dr. Rosalind Forbes. "The victim is exhausted psychologically, physically, emo-tionally, spiritually." The founder of Forbes Associates Stress Consultants of New York City, she has worked for eight years with exec-utives from more than 50 corporations, all Executives from more than 50 corporations. Fortune 500" firms, and wives of executives - showing how to channel stress into positive management forces and how to recognize, prevent and deal with burnout.

Among burnout symptoms, she continues. are physical ones: Prolonged loss of pep. span-ning months; longer-lasting minor complaints; fatigue and insomnia. Psychological symptoms include a feeling of not being appreciated; a feeling that situations, events and people are out to get you; a general sense of boredom. Emotional symptoms include social withdraw-al and withdrawal from meaningful relationships; emotions are hottled up. Finally, spiritual symptoms include deteriorntion of self-esteem and sense of confidence; questioning of self-worth, values and life commitments; spiritual energies are sapped by feelings of futility.

There are 20 questions on the test, which is copyrighted by Forbes' firm, and the instrucuons are:

• On a scale from 1 to 4, answer those questions that apply to you.

Put down a 4 if you strangly agree; a 3 if you agree; a 2 if you mildly disagree; a 1 if you strongly disagree.

Do you find yourself frequently upset or irritable?

2. Are you performing your job carelessly or mechanically? 3. Do activities youronce enjoyed no longer

interest you?

4. Are you withdrawing from key relationships in your life? 5. Are you less communicative with close

friends or loved ones? 6. Have you overextended or overcommitted

yourself in terms of time or energy?

7. Are you tired of it all, feeling mentally or physically drained?

8. Do you find there is no time for relaxation or recreation?

9. Have you lost your sense of perspective, turning minor setbacks into cetastropbes?

10. Are you suffering more physical complaints: headaches, insomnia, frequent colds, fatigue?

11. Do you have a hostile or cynical attitude towards others? 12. Have you unrealistic standards of behav-

ior or performance for yourself?

13. Is your general feeling one of depression or sadness?

14. Are you working harder but accomplish-

ing less? 15. Do you dread going to work in the

morning? 16. Do you try to do everything equally

17. Is your day filled with constant frustra-tion and dissatisfaction?

18. Do you feel you are inadequately compensated for the work you do?

19. Are you unable to laugh at yourself? 20. Do you feel you are more forgetful than usual? Example: appointments.

Add the numbers, then use the following Tating by Forbes;
71 to 80. You have burnout.
61 to 70. Mild burnout.

• 51 to 60. Some warning signs you are a candidate for burnout

41 to 50. Good balance.

SDOLL

 20 to 40. No indication of burnout potenual. ("You may be in a job of under-utiliza-tion." Forbes says. "You may be static or even moving backwards. You may be apathetic, bored and without motivation.")

What if the test shows you are a candidate for burnout? "Back off," Forbes says. Make yourself some safety islands: Take a night out. Make time for ynurself. Take walks. Take up a

Bargains, French and Foreign, in Paris

by Patricia Wells

ARIS - If there is a trend to be seen in new Paris restaurants, it is definitely toward smaller, less-expensive dining establishments. Most new restaurants are, of course, French, but the caisine etrangere continues to make headway, as new Irish, Scandinavian and Swedish restaurants step in to fill the occasional need for a non-French meal.

Many young and ambitious restaurateurs, dedicated to the belief that people want to dine, not just eat, are resourcefully making it possible for people to dine for less money without having to sacrifice atmosphere and a bit of elegance.

One of the best new bargains in town is Le Monastère, which opened six months ago not far from the Louvre, on rue de l'Arbre-Sec in the first arrondissement. Here, for the rather amazing price of 54 francs (about \$10), one can enjoy a five-course meal that might in-clude a pleasant — though dry — terrine de poissons, cassolette d'escargots, mignon de boeuf, wonderful warm chevre salad and a variety of desserts. There's no choice since the menn is set, but this formula provides a varied, bal-anced meal for little money.

The other possibility is the 112-franc, fivecourse menu that does permit you to select from three or four offerings for each course. One cannot fault the lovely seared foie gras, set on a bed of lightly cooked apples, or the magret de canard, served with a refined and flavorful terrine of spinach and parsnips. The desserts, however, are to be forgotten: six or seven ashiray-sized plates filled with mondane, assorted sweets.

Portions are small with both menus, and those with extra-hearty appetites just might leave the table still hungry. Unfortunately, the service is not only snobbish and impudent, but rough around the edges as well. Ask a waiter to replace a soiled dinner fork, and he will point to the salad fork, suggesting that you use "the small fork" instead. The menu selections are not always clearly explained, and diners taking the "bittle menu" are made to feel just a bit stingy.

Despite the problems, Le Monastère is worth trying. There are little touches here in this converted, 13th-century cellar that you won't find in restaurants of standing: calming classical music, absolutely fresh pink roses all around, and importantly, most dishes are prepared with exquisitely fresh ingredients. The cave turned dining room is rather dungeonlike, but well-ventilated and, in the end, warm and welcoming.

. . .

The most-talked-about new Paris restaurant is An Quai des Ormes, open since August on the quai de l'Hotel-de-Ville in the fourth arrondissement. Here the young Egyptian-born Georges Masraff and his wife, Marianne, found instant success, immediately drawing a faithful international clientele of businessmen and journalists.

Masraff started out to be a doctor, but soon found food more appealing. He has worked in the kitchens of Troisgros, Taillevent and L'Auberge de l'IIL Most recently, the couple ran the

Manoir de Lan-Kerellec, in Trébeurden in ! Brittany, where they gained a Michelin star. Masraff's cuisine is personal, inventive and successful more often than not.

One Masraff dish, in fact, merits a visit all on its own. The ravialis de champignons de bois, or little pockets of pasta filled with wild and fresh mushrooms, fresh tarragon and sweetbreads, is one of the most-memorable dishes I've sampled this year. One recent dioer was so taken with this first course that she ordered it again, for dessert!

In keeping with current trends, the Masrafis have their formula as well. This one is a very popular 800-calorie, 110-franc menu. Though the menu was designed to appeal to the female diner, Mrs. Masraff reports that it's finding greater popularity with men. One day the menu might include a light fish course, then perhaps poached chicken in a thin broth, surrounded by crisp, thin strips of vegetables, fol-lowed by fresh fruit for dessert. All rather boring, actually. And the idea of advertising French food as low calorie is appailing: If the French start counting calories, who knows where it will all lead? Are we in for diet Beaujolais, low-cal creme fraiche and saccharinsweetened tarte Tatin?

For those who don't mix dining and dieting, there is a second 100-franc menu."

Other excellent dishes here include grilled St. Pierre with fresh basil, served with whole, roasted garlic; a copious salade de ris de veau; perfectly rare canard sawage served with an sorted wild mushrooms, and rabbit served with pasta and fresh morifles. Desserts tend to be on the sweet side, though the charlotte prepared with blood oranges, and the pear and the lime souffles are all good, inventive dishes. Au Quai des Ormes is warm and relatively

pleasant, though the overbearing wall mural detracts from what might otherwise be a sim-ple, understated dining room. Service is unsophisticated: Orders get confused, waiters reach across the table while pouring wine. And this is the only Paris restaurant that I know has ever refused to order a taxicab for diners.

The average bill, with a moderately priced wine, is 180 francs. When reserving, request that you be seated oo the main floor. The upstairs dining room reportedly gives diners a sense of being abandoned to Siberia.

. . .

La Ferme Irlandaise, an unpretentious, mespun restaurant on the place du Marché Saint-Honore in the first arrondissement, reopened at the end of August after a six-month close, and now sports a new menu, a new staff and a new decor. From the looks of the crowds they turn away day after day, the new formula is just what Parisians are looking for in a restaurant: homey atmosphere, some variety in the menu, reasonable prices and a staff that doesn't take itself too seriously.

La Ferme offers honest, down-home Irish fare that is always hearty and sometimes heavy, Almost everything here is Irish, from the sturdy, handmade earthenware pottery to the rustic antique tables, to the pungent farm cheese named for Veronica Steele, who makes the cheese on her own Irish farm. There's also velvety Irisb smoked salmon, superb homemade brown soda bread, fresh scopes on Sunday and yeasty wholemeal breads through the week. If an Irish friend happens to passing through Paris, he just might bring the Ferme a fresh batch of home-smoked kippered herring

December 19-20, 1981

from Shanagarry. The restaurant is actually the brainchild of Myrtie Allen, who runs Shanagarry's Bellym-aloe House, considered one of the best restanrants in Ireland. Mrs. Allen selected the menu, helped train the staff and oversees La Ferme from a distance

The Ferme Irlandaise menu changes frequently, although it usually features insh stew, a roast stuffed loin of lamb chops with mint sauce, soups and various fish and shellfish A meal, with wine or Smithwick's Irish Ale, will cost from 75 to 100 francs. But the real buy is the Sunday brunch, held from 10 a.m. to 1 p.m. For 45 francs, you can feast on a imperimized platter of smoked herring (when available) and smoked salmon, or, alternately, a serving of posched, scrambled or fried ages surrounded by black blood pudding, a rasher of thick Irish bacon, slender pork sausages and a pork-based white pudding. With this, there's all the homemade bread, Irish salted butter, jam and honey you can eat, followed by a warming pot of Irish tea.

Service here is a bit belter-skelter, though always responsive. When reserving, ask to sit on the main floor; The downstairs is a bit damp and cavelike.

For another foreign cuisine and herring of another variety, there's L'Akavit, an extremely popular spot on rue Dauphine in the sixth arrondissement. Since its opening around the first of the year, this Swedish and Scandinavi-an restaurant has attracted a trendy young French clientele that obviously enjoys downing chilled glasses of clear aquavit with their herring, salmon and Swedish meatballs.

The menu here is varied and the food is decent, though no more than that. But portions are copious and the small, bistro-like Akavit is relatively inexpensive. A meal with a moderately priced wine will cost about 100 france. The assorted herring appetizer is a meal in itself, with four different herring preparations, including fish cooked in vinegar and onions, and others prepared in sauces flavored with tomato, dill and curry. The main course of poached salmon with aquavit sauce offers a good change of pace, though both the salmon and accompanying green beans were soggy and overcooked. The service is fast, bistro style, and the wine list brief.

ece of ultrathin leath-Ler that runs from shoulder to elbow and is worn under the sleeve of a dress or suit to conceal from robbers small items such as house keys, money for a cab, an identification document or even a diamood ring.

The zippered, antimugging pouch strap, called a brassard after the piece of armor that covers the same portion of the body, comes in various colors and sells briskly in better stores at the equivalent in lire of \$42.

Costume jewelry designers, prompted by a current wave of chain snatchings, have come up with new lines of broad necklaces that are so obviously of plastic or cheap metal alloys that even the most unsophisticated mugger will spurn them - or so it is hoped.

In Milan, some first-class restaurants lock their doors at 9 p.m., carefully scrutinize latecomers through peepholes and have their own guards escort diners to their cars or a cab when they leave.

In the large Italian cities it has for some time been the smart thing to invite guests to dinner or after-dinner parties and to offer them beds for the night, so that they don't have to drive home before daylight.

In Rome, where winter days can be chilly, many women no longer dare to walk with fur coats on except in the busiest streets, for fear that assailants may push them against a house ings, purse snatchings and most burglaries have long been dropped from the official statistics of lawlessness, and many victims no longer bother to report them to the police. Newspapers and magazines have contended lately that the proportional number of crimes, per thousand population, is higher now in such cities as Turin and Naples than in New York.

A scholar in her 30s who recently returned to Rome after several months on a research project at Columbia University says: "I felt afer in New York than I feel here. In Manhattan I knew exactly which areas to avoid. I never was afraid of going out in Greenwich Vil-lage at any hour, for instance. Here in Rome, danger and violence are unpredictable. I try to stay home after dark."

The woman commutes every week to Urbino, Raphael's birthplace near the Adriatic coast, to lecture at the university. "It's another world," she observes. "Quiet, dignified, safe." It is as if the gentle life of Italy has withdrawn to the provincial cities and small towns.

In the large urban areas everybody seems to have had some unpleasant brush with crime lately, or knows somebody who did. A lawyer here reports: "I signaled with my hand out of the car window because the blinker had broken down, and some punk on a motorscooter stripped the wristwatch off my ann." In Sicily's capital, Palermo, residents consid-

to be much more upset by the scippi and burglaries than by the murders that terrorists and feuding Mafia families perpetrate, or by the raids on banks and other spectacular enterpris-es by big-bine gangsters. The victimas of political terrorism and organized crime are politi-cians and rich people who, to some extent, can defend themselves with guards and bulletproof limousines. The average city-dwellers feel unprotected and must rely on their own wits to foil the predators.

Why have the streets of some of the biggest Italian cities become so dangerous? A nationwide debate in the media points to drugs, permissiveness in society, weakening family bouds, the impact of movies and television and the example of right-wing and left-wing terrorists as factors.

Readers' letters to newspapers have also suggested that the fascination of Italian teenagers with motorcycles and scooters - always without mufflers — is brutalizing the young generation. Other letters denounced the many vulgarities that have lately slipped into every-day speech, as well as into movies and television shows.

A national news weekly, Panorama of Mi-lan, warned from its cover the other day: "The Italians are increasingly ferocious - the hour of the wolves." 01981 The New York Times

Cross-Country Skiing Continued from page 7W

the 45 kilometers of loops. In December and January, a six-day week here costs 308 francs. Tourist office: CH-8840 Einsiedeln; tel: (055) 53.44.88.

In the Bernese Oberland, people-watchers go to Gstaad, where the problem is to tear one-self away from the fascinating non-ski life. Gstaad, at 1,100 meters, holds the key to a variety of downhill slopes and several interesting valleys, one wide enough for the jet-set air-field, the other for the nine-hole golf course. For cross-country fans, there are 21 kilometers of track and 15 more of marked trails that run along terrain that is never 100 tricky. The Montreux-Oberland railway parallels the trail all the way. In January and March, you may rough it at the Palace Hotel for 1,000 francs or consider offers elsewhere from 550 up; these cross-country weeks include rail and bus pass. Ski instructors don't mind if you dance all night since cross-country lessons are scheduled in the afternoon. Tourist office: CH-3780 Gstaad: tel: (030) 4.10.55.

Only 15 minutes away by postal bus and 100 meters higher is Gsteig. This village relies on its famous neighbor's ski school and lift connections but bas a cross-country vocation of its own. One loop has been made at the base of the Reusch glacier. A trail circles the cluster of seasoned wood chalets to join the Gstaad-Chateau d'Oex track. In a cozy rustic-class inn, the winter offer is 380 francs, with 10 percent off in January. However, only three ski lessons are given and there is no bus pass. Tourist office: CH-3781 Gsteig; tel: (030) 5.12.31.

Two cable-car changes within reach of both places will take you up to the Glacier des Dia-blerets where one can ski the year round: n loop has been traced at 3,000 meters. Just below, after the Col du Pillon, is Les Diablerets ni 1,200 meters a family-style resort known for varied downhill skiing. Over 15 kilometers of trails have cut into the forest along the narrow valley. Copied from the Club Med formula, the Swiss Village Club offer offers full board, ski lessons, ski rental and drinks with meals. One week costs 853 francs, from mid-December to mid-March. Tourist office: CH-1865, Les Diablerets; tel: (025) 53.13.58.

High in the Valais, from Oberwald to Obergoms, the branch-new Rhone races from its source through the Goms valley. Along the banks, an undemanding altitude trail wanders never more than a mile from the Furka-Oberalp railway and its many whistle stops. Forty kilometers of track bridge torrents and traverse wide fields fringed with Christmas trees. There is no more than 100 meters' difference in elevation the entire way. Jean-Francois Kister, the editor of Geneva's cross-country magazine, Découvertes, thinks the best month for snow and sun here is January.

All winter long, the Oberwald Sporthotel -CH-3981 Oberwald: tel: (028) 73.11.28 - at 1.370 meters, offers an all-inclusive arrangement for 388 francs.

Ever since the Romans first tramped over the Gemmi pass, people have brought their rheumatic aches and pains to Leukerhad in the Valais. Once the fashion was to dunk in the bubbly mineral waters all day but now the at-mosphere is more sporty. Cable cars hoist the cross-country skier in 5 minutes from 1,410 to 2.314 meters where the view stretches as far as the Matterhorn. On the icy plateau there are 20 kilometers of trails and a Stakhanovite skier can even punch a time-clock to compare his efforts with those of the champions. After the workout, the skier deserves to unwind in one of the 7 open-air pools that average a tropical 35-degree Celsius temperature.

Swiss Ski School cross-country weeks held here in December, January and March run from 501 francs and include transport ticket and entry to the pools. Tourist office: CH-3954 Leukerbad; tel: (027) 61.14.13.

The cross-country appeal of the older, softer range of the Jura cannot be overlooked. Just over or below 1,000 meters, the flattened crests emerge from the cloud-hung Lake Léman and Neuchatel regions as snowy islands in the sun. About 250 kilometers of connecting trails have been marked and mapped. It is an area for the independent skier who can get mound with a map and be content with simple holels or inns. The 7-day Evasion package in any of the 14 hotels of the area starts at 266 francs.

The Franches Montagnes area is famous for horse raising: unfeoced fields, open country dotted with clumps of stately pines. Another way to explore the area is its Equipe formula, 520 francs for a week of tours with a guide from base camp at the pleasant Hotel de la Clef at Les Reussilles. You log about 25 ki-lometers a day. The regional lourist organiza-tion is Pro Jura, CH-2740 Moutier; tel: (032) 93.18.24.

A guided snow safari will leave every two weeks in January and February from La-Vuedes-Alpes. Daily laps of 20-25 kilometers will take you from the Swiss to the French Jura, with baggage following. The 520-frane offer in-cludes all meals and simple accommodations along the way, as well as the bus ride back to the departure point. These two arrangements are for experienced skiers. Tourism office: CH-2300 La Chaux de Fonds; tel: (039) 22,48.21.

Besides these possibilities, there are more than 60 cross-country offers available in the Swiss National Tourist Office booklet "Swiszerland All-In for Cross-Country skiers 1981-8... This and a "Fly-Luggage" brochure are abiainable from the office at CH-8027 Zurich; tel. (01) 202.37.37 or at Swiss tourist offices throughout Europe.

Christmas Shopping: Gonna Find Out Who's Naughty and Nice

In New York

the subscription of the second second

by Maureen Sherwood

der all a better at

EW YORK — Christmas gift-hunt-ing in New York can also be a tour of the city, with most areas able to tempt the buyer. Starting on the Upper West Side, Zabar's oo Broadway at soth Street (tel: 787-2000) has one of this street gintricks: the lung turger it costs year's best gimmicks: the tune turner. It costs \$9 and is designed to mix tuna fish salad with a system not unlike certain subway exits: re-volving with intermeshing bars. More extrava-

volving with intermesting bars. More extrava-grat, in the fish department, Zabar's has fresh Caspian caviar at about \$1,100 for a 2-kilo tin. Columbus Avenue is well-sprinkled with po-tential gift shops from about 79th Street down. The Petit Loup at No. 187 (tel: 873-5358) sells endearing, po-faced soft dolls that — accord-ing to the store — have souls They core from ing to the store — have souls. They cost from \$11 to \$15. Cushions in the form of giant paint tubes (\$52) and candies (\$22) make delightful children's furniture.

The Metropolitan Museum of Art, on Fifth Avenue at 82d Street (tel: 535-7710), contains

the biggest of New York's museum shops. The children's shop sells small colonial dolls with articulated wooden limbs from \$10 to \$42; the main shop sells jewelry, china reproductions and other objets d'art.

Crossing town on 57th Street, the Lee Bailey Shop at Henri Bendel at 10 West 57th (tel: 247-1100) sells heatable beer mugs at \$6.50 for those — perhaps British expatriates? — who prefer their ale im-iced; the eggrite, an electri-cal gadget the shape of half an egg, which guarantees a perfectly cooked egg, at \$7, and other ingenious ideas.

Tiffany, at Fifth Avenue and 57th Street (tel: 755-8000), has cut-crystal ice buckets at \$75, a selection of crystal vases from \$22 and pitchers and carafes in crystal from \$18, Hammacher Schlemmer, at 145 East 57th Street (tel: 932-5353), should on oo account be missed. This year, it is featuring "the blubber," a 1940s juke box that costs \$7,500; for the executive workaholic who never goes out to lonch, desk games like the problem solver at \$30; a duck-shaped telephone with head attached to the receiver (S250); a wine frigidarium to keep wine or champagne chilled for hours (\$10.95); a fry-pan with a clock on its back that may be seen across the vastest kitch-en (\$450); battery-operated electric socks

ALC

el, strobe lights and landing legs. All for \$2,500. More modestly, a smaller astronaut ship that holds play figures costs \$34.95. Julie's Artisan Gallery at 687 Madison Ave-

Jule's Artisan Gallery at 687 Madison Ave-nue (tel: 688-2345), has kitsch knitted scarves with "New York New York" emhlems at \$70. Almost next door, a oew arrival, Santini e Dominici at 697 Madison (tel: 838-1835), sells umsual horizontally striped leather boots in subtle shades at \$180, and more functionally, while some there is all solom at \$25

ruhber cowboy boots in all colors at \$25. A1 Bloomingdale's, Third Avenue at 59th Street (tel: 355-5900), some moderately priced gifts include a gold/silver tone pull-apart key ring that is monogrammable (\$10); plastie watches on ribbons to wear round the neck in all colors (\$12.50); ultra-feminine wedgeheeled slippers in sain and fluffy marabou (\$22); rabbit fur carmuffs (\$18). For those who have seen the movie "Mommie Dearest" and have seen the movie "Mommie Dearest" and have since developed a loathing for wire hangers. Bloomie's sells fragrant satin ones at \$12 for five. For kids: digital watches (\$25); learning machines that talk and teach math, reading and spelling (from \$20). An amusing and highly typical New York gift is a ceramic set of coasters in the form of a hamburger or a bagel with lox and cream cheese (\$15). Cardier, 212 Third Avenue (tel: 473-7971), sells a selection of original stationery per-

sells a selection of original stationery, per-fumed pencils at 60 cents each and paper box-es at \$1.50. The Pottery Barn, main store 231 10th Avenue (tel: 741-9120), with branches ou Greenwich Avenue and Lexington Avenue, has a whole range of gifts at \$10 and under. These include a 12-foot telephone extension cord (\$4.25); tough string bags in different col-ors (\$5) and three types of champagne glasses at \$4.50 each.

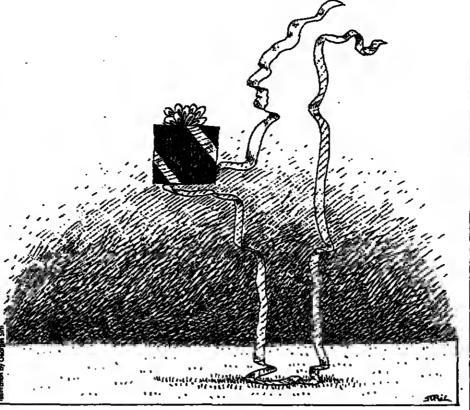

Down in Greenwich Village. The Chess Mart at 240 Sullivan Street (tel: 473-9564), and The Chess Shop, 230 Thompson Street (tel: 475-9580), sell all kinds of chess sets in ivory, jade, glass, ceramic and wood. There are modern and antique sets, miniature sets, 3-D sets, even rather obscene sets. Prices range from \$15 to \$600. In the back, chess players concentrate

to \$600. In the back, chess players concentrate in clouds of smoke. Nearby in SoHo, Beantiful Things, 151 Spring Street (tel: 431-9883), sells exclusively designed quilts, some with landscapes, one with a whimsical teddy bear floating in a bal-loon, all in colors. Prices start at \$100. Think Big! at 390 West Broadway (tel: 925-7500) sells six-font pencils (\$95); 10-by-13-inch matchbooks (\$10); 11-inch screws (\$20); choc-olate chip cookies 33 inches across (\$75); yel-low legal pads 35 inches high (\$25), and 6-foot-tall toothbrushes at \$150. At 160 Bleeker Street, Gillies 1840 (tel: 260-

At 160 Bleeker Street, Gillies 1840 (tel: 260-2130), is proud to be selling President Reagan's favorite jellybeans, known as "jelly bellys." Gillies' president, Donald Schoenholt, describes the mouth-watering flavors: "They're oothing like the ones 1 had as a kid. They're really delicions: watermelon is green on the ontside and pink on the inside. Baked apple is good, too." Jelly bellys come in 36 flavors and can be bought loose at \$3.99 a pound or in gift glass jars just like those found at White House meetings about budget cuts and neutron bombs

Silk and rayon kimonos, quilted jackets and Chinese slippers are still reasonably priced down in New York's Chinatown and can be found at all shops in the area. Warm, reversi-ble quilt jackets are about \$65, and Chinese slippers \$4.50.

East Side, West Side, all around the town, Christmas can be a lonely time for those with-

In Hong Kong

by Harry Rolnick

ONG KONG — Shopping is as much a part of life here as work itself. Hong Kong's tourist industry was built on the attraction of its shopping, which accounts for about 60 percent of all visitors' expenditure, about \$60 million a year. Rents here have pushed prices up considerably these past few years, but the opulence of visitors, the status-conscious mentality of the residents and the fact that all goods are imported duty-free make Hong Kong ripe territory for spending sprees.

Luxury goods are sold for luxury prices at the three branches of the Lane Crawford De-partment Store, 70 Queen's Road Central, Hong Kong (tel: 5-26.61.21); Windsor House, Causeway Bay (tel: 5-790.10.52) and Manson House, Tsimshaisui, Kowloon (tel: 3-67.00.44). Ere offer thread the Oriental Callary in

For gifts, though, the Oriental Gallery in each branch has stylized Asian goods seen nowbere else. For HK\$100-\$200 (about \$18-\$36 in U.S. dollars), antique porcelain shards are sold set in silver, for use as pendants or rings, For HK\$420, an old-style Japanese-Chirings, For HKS420, an old-style Japanese-Chi-nese noodie-carrier (with four compariments, plus a "change-drawer" and chopstick bolder) makes a fine oovelty. They also have ebony chests, beautifully decorated old optum pipes (blocked up for legal reasons) and animals shaped out of copper from Thailand and Bur-ma but finished in Hong Kong. Silk kimonos costing up to HKS850 are fairly expensive, but beautifully done.

Chinese children are among the most beautiful in the world, partly due to their fashions. And nowbere can one find such a mammoth selection of traditional baby clothes than on Fat Hing Street, called "Baby Lane," ocar the castern end of Central off Possession Street. Silk-embroidered caps, capes, jackets, vests, quilts, traditional backpacks for carrying babies, padded coats in floral patterns - an incredible selection, with prices just a few dollars for the most gorgeous materials. For thousands of years, jade has been revered for more than its beauty; treatises, po-ems and songs have celebrated its medicinal values and its use as a magic talisman. An aw-

ful lot of fake jade is sold, but the real thing can be recognized because it cannot be scratched hy pointed steel, and a drop of water will stand out like a bead since it won't run, as oo glass.

The cheapest items are at the Jordan Road outdoor jade market every morning from 10 a.m. to noon, with everything from priceless old pieces to worthless fakes. But even if fake, the stone might be beautiful and worth getting. Those who want something more luxurious go to any of dozens of jade-carvers. The most exclusive jade shop is Jade Creations Ltd., Lane Crawford House, Central, Hong Kong (tel: 5-Lraword House, Central, Hong Kong (tel: 5-22.35.98), where the owner, Vicky Thommy, designs everything in the shop. A tiny jade lock (used for locking children to the earth, metaphorically speaking) might cost HK\$140; an old jade pendant with diamond necklace might cost HK\$225,000. Thommy's philoso-phy is to strive for simplicity, to allow the beauty of the jade color to stand out.

Many stores have endless goods from China, including Chinese Merchandise Emporium, 92-94 Queen's Road Central, Hong Kong (tel: 5-24.10.51); China Products Co., 488 Hennes-sy Road, Canseway Bay (tel: 5-77.02.22) and 19-31 Yee Woo Street, Canseway Bay (tel: 5-790.83.21) and Chinese Arts and Crafts, 233 Nathan Road, Kowloon (tel: 3-67.00.61). Since most choraest are local the prices are when most sboppers are local, the prices are much cheaper than in China's own "Friendship Stores." Here are inens and embroideries, splendid Chinese cashmere sweaters, jade, fur-niture, carpets, porcelain, towels, snuff bottles, acupuncuture supplies, packaged drugs, herbs, royal jelly, woks, chopsticks etc.

For those who prefer giving to getting, there are ample opportunities. The housing shortage in Hong Kong makes it impossible for some children to find room to study, so the charity Child Trust, Flat A5, Po Shan Mansions, 16 Po Shan Road, Hong Kong, builds and oper-ates study rooms to the resettlement estates and the poorer sections of the New Territories. The group now helps 34,000 children.

In London

by Vicky Elliott

ONDON — While British manufac-turers founder in the doldrums, Brit-ish craftsmen, it would seem, are hard at work from outermost Orkneys to deepest Devon. An enterprising shopper with a tactical list of addresses will have oo problem here turning up the hand-picked Christmas gift that oo one else can duplicate. Hand-turned, hand-finished, bespoke or bespangled, Lon-doo's gifts are tailored to fit.

Covent Garden is a potpourri of some of the brightest new retail stores and craft outlets. At the Glass House, 65 Long Acre, W.C.2 (tel: 836.97.85) a cooperative of six artists stoke their furnace night and day as they work on an impressive range of individual designs — smoky paperweights (upwards of £6, about \$12), wine glasses with dizzy whorls (around \$15), squeezed futuritie beskers and buse £15), squezzed futuristic beakers and huge round platters by Tony Newell on which cave-men codlessly chase their prey (as much as £275).

The British Craft Center at 43 Earlham Street (tel: 836.69.93) and Craftwork, at 33 The Market, Covent Garden (tel: 439.30.02) tread a thin line between the aesthetic and the functional. The Craft Center deals in wood, silverwork and pottery: There are grainy wooden bowls in mulberry, ash and lacewood (around £30), delicate fluted boxes (£20), ba-roque teapots in pastel colors (about £20) and warped wooden bangles. Craftwork has freehlown glass, imaginative knitwear — the strawberry-patterned sweaters are fun — (from £30 to £130) and all manner of ingenious arti-

David Mellor, at 26 James Street (tel: 379.60.47), also based at 4 Sloane Square (tel: 730.42_59), carries craftsmanship into the kitchen with a series of good-looking massproduced lines: an outsize chopping board for cutting the turkey (£12.93), a beautifully turned salt bowl from Devon at £3.11 with a horn salt spoon from Cumbria at £1.16, a range of country-house copperware (an 8-inch santé pan costs £34,70) and hand-woven linen. The stores also stock a promising Christmas pudding put out by Eliza Acton's restaurant The Carved Angel, featured at the launching of this year's Egon Ronay Good Food Guide. It costs £4.95 — including a pudding basin that could come in handy for haircuts later.

Whistles, in the covered Covent Garden Market (tel: 379,74,01), also at 1 Thayer Street (tel: 935,70,13) and 111 Walton Street (581,37,02), sells idiosyncratic sweaters by Juhia Pines. Each one, in her characteristic bunchy weave, has its own orchestration of colors (from around £80 and up). Whistles also indulges in soft beaded woolen socks in paste colors at £8 and a regulation cargo of pirate gear.

For an overview of what's what in British pottery, one of the best addresses is J.K. Hill, 151 Fulham Road, S.W.3 (tel: 584.75.29), which has a sampling of everything from Da-vid Leach's monumental amphorae (collectors' pieces that are sometimes seen at Sotheby's) to some very handsome mugs with designs of bamboo at £2.60. The selection is tantalizing; the sober lines of reduced stoneware (a teapot can cost £16.50); dark glazed slipware that resurrects a 17th-century craft; brittle sea forms --- sea urchins and starfish; massive unglazed flowerpots by Jim Keeling; and elaboous real sponges (from f1.50 to around f30) and the biggest, snowies: hadger shaving hrushes (f6 to f200) at lyan's, the haircutters and perfumers at No, 20 (tel: 734, 13.70). Geo. Trumper, at 9 Curzon Street. W.1 also carries a stately set of men's toiletries in flasks that louk. as if they came right out of the Duke of Well-ington's camp chest (Marlborough cologne, for-example, costs £6.50).

Paxton and Whitfield at 93 Jermyn Street (tel: 930.02.50), will mail a selection of their yeoman English ham — and cheeses: Whole Blue Wensleydale (at £2.50 a pound; £5 a pound if mailed to Europe); Shropshire Blue (at £2.15 a pound); Truckle Cheshire Cheese (at £8.40 each) and, of course, the traditional brown stooeware jars of Stilton (from £3 to £10.75 each in the shop, £9.70 to £21.30 mailed . to Europe).

One way of switching children's attention away from the television is to give them their own cutout Pollock's toy theater, whose Victorian designs have been delighting generations.

Scenery changes are slotted in and out of the ornate stage, a little smaller than the average television screen, and the characters are slid on stage from the wings. The larger theaters, to be mounted oo wood or cardboard, cost £5.75 and come complete with three plays and texts; the simpler cardboard version comes at £1.80 with 60p extra for the plays — including Ara-bian Nights' favorites such as "Aladdin." Pol-lock's Toy Museum at 1 Scala Street, W.1 (tel: 636.34.52), has a second shop at Covent Garden.

The air traveler who wants to fit his gifts into his pocket won't have any trouble at The Singing Tree, 69 New King's Road, S.W.6 (tel: 736.45.27), which has cut the problem down to ... size — or dolls' house dimensions. You name it, they've shrunk it.

The shop sells oot only Georgian dolls' houses to be assembled (at £276,10) but stores in the mood of the painter Edward Hopper, into which can be crammed their pies, minia-turized crates of tomatoes (£2.95) that some cottage industrialist has been painstakingly putting together in his front room. The ingenu-ity of it all — and the prices — make one gasp. There are immaculate little natural wood dressers at £15.20, miniaturized Royal Couple down to a half-inch for £9.20) and even a 2½-inch desk with sliding drawers and a slatted roll top at £99.50 for the unabashed enthusiast.

At the Blewcoats' School, 23 Caxtoo Street, At the Biewcoats School, 25 Caktoo Street, S.W.1 (tel: 222.28.77), a classically beautiful brick building dated 1709, the National Trust has marshaled some nifty marketing talent oo a cornucopia of gifts that challenges one to leave empty-handed.

Earthenware bowls printed with scenes from Thomas Hardy (£1.99 each), table mats illustrated with some of Britain's lusliest gardens (a set of four costs £9.95), packs of hand-cut rose and cucumber soap (£2.50), handmade en-graved glass goblets (£12.95) successfully mix traditional concepts and trendy packaging — at eminently affordable prices. Mail orders are dealt with at The National Trust (Enterprises), Ltd., PO Box 101, Melksham, Wiltshire SN12 2E A 8EA.

"Please to put a penny in the old man's hat," begs the old Christmas rhyme. One possible hat is the sou'wester of a member of the Royal National Lifeboat Institution, at 21. Ebury Street, S.W.1, whose Christmas is spent

(\$29.95); talking scales — no more bending double to read the bad news — (\$145); a "sleep sound" machine that will lull you to sleep with scientifically blended tones (\$35).

At F.A.O. Schwarz on Fifth Avenue at 58th Street (tel: 644-9400), children might persuade their parents to get them a space activity cen-ter; an aerodynamically designed playhouse complete with sound module instrument pan-

er-oriented season. Some worthy charities to spread seasonal cheer include The New York Times Neediest Cases Fund, POB 5193, General Post Office, New York, New York 10087; and The Save the Children Federation Inc., 777 United Nations Plaza, New York, New York 10017. UNICEF Christmas cards can be purchased at the United Nations Gift Shop in New York.

Jermyn Street, complete with Turkish baths, is the mecca for the complete gentleman: for the classic Harvie and Hudson striped shirts at Nos. 77 and 97, which cost £27.95; for gener-

on the charning seas. And, to remember those who aren't able to see it all, send donations to the Royal National Institute for the Blind, at 224 Great Portland Street, W.I. If you haven't got a penny, a ha'penny will do.

From Texas to the Vienna Stage

by Alan Levy

TIENNA - When statuesque Melanie Holliday came to life in the title role of Franz van Suppe's seldom pro-duced 1865 comie opera "Beautiful Galathea" and stepped down off her pedestal to confront her creator. Pygmalion, she was slightly startled by unexpected glints that had naught to do with the spotlights at Vienna's Volksoper. It took this former Miss Teen-Age Texas - who, singing in German, has ad-barely a second to recognize what had taken her aback: "Opera glasses, even in the first row!"

For barely three seconds (which had already been previewed on Austrian television's main newscast), Galathea hares her derriere to the audience and this was what had brought out the binoculars for the Volksoper premiere. Just turned 30, Melanie Holliday has made her name in Austria, where people want to see more of her as well as hear the high-E coloratura that is another of her assets.

Over the last year on Austrian television, she has been the hostess for a particularly asinine astrology show, "Horoscope." for which a large public stays awake just to eatch her song-and-dance number, always the stellar attraction. They know her as a blonde bombshell with serv legs that can can-can: She is one souhrette in "The Merry Widow" who, instead of standing aside to let the dancers kick up their heels, leads the third act can-can herself. losing two or three pounds a night in the pro-

Most admirers assume Holliday is a stage name, but like so much else about her, it is real. "It belongs to a husband I had." she says sofily. "I gave up the husband, hut kept the name.

name." Born Melanie Claire Young in Houston, she swept the Miss Teen-Age Houston and Miss Teen-Age Texas competitions at the age of 17 and finished second in the Miss Teen-Age America finals. Runner-up money and the scholarships that came with it had her ticketed for New York. "Juillard had a great dance department as well as an opera theater," she says, "with Broadway just outside the door in case I wanted to be the next Mitzi Gaynor. But a week after my 18th hirthday, in late summer of 1969, I fell off a horse in Houston and frac-tured my first lumbar vertehra. I was two months flat on my back in the orthopedic cen-ter and nobedy had to tell me it was curtains ter and nobody had to tell me it was curtains for my career as hollerina."

Instead of Juilliard in September, it was Saot Houston State University in Huntsville the following January, with Melanie encased in a back brace (a smaller version of which she still wears to rehearsals from time to time). "Sometimes adversity helps," she says. "All Sam Houston had for me was an opera workshop with Dr. Walter Foster and, while my

brace hindered my breath technique, it sure msde me an ideal choice to play Olympia, the wind-up doll, in Tales of Hoffmann.' My waist was all laced up like a real doll's, and I had to stand rigid and stiff." Today, without a brace but with point shoes, Olympia is a staple io her repertoire.

Success at Sam Houstoo and reasonably rapid recovery took her to Indiana University, which has perhaps the best opera department and facilities in the world. There she met and married a graduate student of opera stage di-rection named Thomas Holliday, who had taken his degree in voice at Indiana U.

When he was selected for a one-year exchange program with the Hamburg State Op-era, she stayed in Bloumingtoo to finish her degree and then joined him in Hamburg in De-cember, 1973, by which time he had signed on for a second year as an assistant director. "But the only role they had open for me at the time," she recalls, "was as the Happy Haus-frau: rosebuilding the radishes, starching the shirts and climbing the walls."

After she found work with the provincial opera in Klagenfurt, Austria, her husband joined her there for a year and directed her as Adina in "Elixir of Love." When an offer came for him to head the Opera Theater at North Texas hum to head the Opera Theater at Notit Texas State University in Denton, he packed his hags, but she didn't. She had audintooed in Basel for the difficult and taxing role of Zerbi-netta in "Ariadne auf Naxos" and, "at that stage of her career, no coloratura 1 know would have said no to Zerhinetta." This led to a slow parting of the ways; after several years of separation, they finally divorced in 1979, by which time she was (and still is) living with a Dutch journalist based in Vienna, Jan van der

Brugge. In the summer of 1976, she came to Vienna's Stadthalle as Cunegonde (a gaudy part that, because it defies many a musical-comedy voice, is known as "the Broadway Zerbinetta" in the first German-language production of Leonard Bernstein's "Candide." When Bern-stein caught her act, he asked, "Where were you when this was on Broadway?" and has pushed her career ever since. While in Vienna, she auditioned for Volksoper chief Karl Donch (who plays Midas, the wealthy and broker art collevier to ber Galantee) and lecherous art collector, to her Galathea) and signed a two-year contract. (Her current coatract expires next summer and both she and the Volksoper have agreed to renew for three more years.)

Singing everything from the pig-farmer's daughter in "Gypsy Baron" to Philine in "Mi-gnon," she came swiftly into her own as a pert gnon," she earne switty into her own as a pert and saucy Adele, the maid, in the Volksoper's mainsing, "Die Fledermaus." Though the part is very Viennese, a prominent local critic exuit-ed: "Metanie Holliday is Adele!" She also re-curs as princesses: the heroines of Oscar Straus' "Waltz Dream" and Prokofice's "Love of Three Oranges." Starting March 5, she will sing Bianca in Cole Porter's "Kiss Me Kate" in German as is cervithing at the Volksop-- in German, as is everything at the Volksoper.

She would like to sing Sophie in "Rosenka-valier" as well as Zerbinetta at the more prestigious Vienna State Opera, to which she made her first musical trip across town to sing two solos in Bernstein's "Mass" last February. While she aspires to the Met as well, her immediate target is Houston; the hometown girl who fell off a horse and fell back on her voice would like to go home in triumph just once. But it is a slightly melancholy Melanie Holli-day who tells how that boat has been missed twice

"I did Adele in Tokyo when the Volksoper company toured Japao in 1979 and it was vi-deotaped for Eurovisioo and shown all over Europe that New Year's Eve. I got offers from everywhere, but the one that meant the most to me was from David Gockley of the Houston Grand Opera and I accepted." Casting coo-flicts, however, led to a change of roles and she would up declining a promotion from maid to mistress: "I'll surely be a good Rosalinda io a few years, but right now I'm Adele from the top of my head to the tips of my toes."

And schedule conflicts with "Galathea" again prevented her Houstoo Grand Opera de-but this season as Musette in "La Bohéme." The Brechtian adage that "no man is a hero until he goes home" still holds, hut Melanie Holliday is a heroine whn wants to go home first-class.

Melanie Hollhdov is scheduled to sing "Die schöne Galuthée" on a double bill with Carl Orff's delightful "Die Kluge" on Jan. 10, 14, 26 and Feb. 23; Adele in "Die Fledermaus" twice in January, and Valencienne in "The Merry Wide on" on Dec. 30.

The art market

So Much for the 'Avar Treasure'

by Souren Melikian

ARIS - There is a cheering lesson to the sensational sale of antiquities from the ancient Mediterranean world held this week at Sotheby's in London: In this field, collectors are not all that naive after all. When confronted with disturbing objects and a story pieced together from unverifiable statements and a succession of assumptions, collectors will give the objects a wide berth.

So it was that the so-called Avar Treasure -128 gold and silver belt mounts said to match those from a find made in Albania at the turn of the ceotury - remained unsold, with a single. pitiful exception. This was a silver and gold strap retainer carried away as a £3,080 (about \$5,800) souvenir by a Paris dealer. That is not much of a compliment for a treasure whose worth was estimated at \$400,000 or

Clearly, the clumsiness of some of the pieces numed off potential buyers. This is true, among others, of some gold elements; the spi-dery, hesitant arabesques and the figurative elements oddly inserted at random looked, it seemed, like fancy ornaments for a comic strip on Attila the Hun. Even the most sophisticated laboratory examinations do not carry enough weight, against such a handicap - particularly when they leave several questions unanswered. Whatever happens to the "Avar" pieces of

the treasure, they will not appear at auction any more. It is highly significant that the two sixth-century Byzantine silver dishes supposedly found with the gold and silver mounts — ooe superbly preserved and the other in fragmenta-ry condition — sold for a huge £26,400 and £13,200. They never raised questions in anybody's mind as to authenticity and no one gives a hoot about provenance.

Equally telling is the fate encountered by a large-size bronze head, 31 centimeters high, de-scribed in the catalogue as "Imperial Roman...c. first-second century." The entry mentions George Ortiz as the last of two "for-mer owners," a fact that the collector, a resident of Geneva, confirmed to this writer. That in itself is a compliment to any ancient Greek or Roman bronze. Ortiz has one of the sharp-est eyes that ever looked at ancient bronzes, and owns one of the finest collections of second and early first millenium B.C. pieces from ancient Greece.

But there is a lot more to that bronze head. According to a well-informed source in the dealing-collecting community, the head belongs with a group of bronze statues now in Boston. All of these are said to have been found after World War II near the southwestern Anatolian coast - io other words, in an area that was Greek until this century and has yielded much of the finest Greek sculpture at all periods.

In terms of the sculptor's craft, the head is a stunning achievement, whatever one may think of it aesthetically. It is so impressive that the reaction of one or two connoisseurs was to consider it "too good to be true."

The fact that it once graced the collection of Ortiz - not just that of anonymous owners like the "Avar Treasure" — may have played an important role in assuaging any such fears, which were unjustified in this writer's view. And so did its inclusion in an exhibition held at the Metropolitan Museum of Art in New York.

Yet the head could have been killed, commercially speaking. For some time, a source says, it was tantalizingly dangled hy its Lon-don-based owners before various institutions. The price quoted to this writer is \$800,000-\$1 million and at half that price it would still have been hugely expensive. To do that sort of thing can be fatal: Orice a seller starts climbing down, the potential buyers, who are very few

anyway, think that something must be wrong. The fact that it was sold, in my view brilliantly, at £110,000 to a Swedish institution, the Medichavs Museet — "Medicerranean Muse-um" — in Stockholm, speaks for Sotheby's salesmanship. But is also proves that when all is said and done, it is the art that matters, not the verbiage.

The context of the sale makes II all the more remarkable as there were no uncontrolled outbursts of enthusiasm even though the auction included many very fine pieces. A standing bronze figure of Osiris from seventh- or sixth-century B.C. Egypt was oot overpriced at £1,390. An Anglo-Saxoo fibula found oo War-ren Hill, at Mildenhall, Suffolk, was ebeap at £374 and so was a superb Scandinavian bronze brooch, made around the ninth century A.D., at £660. Many other instances show that the sluggish market will respond only to pieces

December 19-20, 1981

Page 10W

Imperial Roman' bronze.

that are not just superb but supremely spectacular as well

This an an international trend, it could be verified on the same day in Paris at a sale of antiquities conducted by Jean-Louis Picard. A bronze standing figure of Venus in much the same posture as the famous Louvre "Venus de Milo" - with one arm broken off as if to carry the resemblance further — whizzed to 110,000 francs (close to \$20,000). But several pieces of

fine quality were bargains. The market has been going through a diffi-cult period since June-July, reacting perceptibly to the deflated economy. For many antique dealers in London this has been the worst year for a long time. And oow the Polish crisis is beginning to take its toll as, once agaio, huyers refuse to act when confronted with the possibility of war.

The Uffizi Gallery Turns 400

by Susan Lumsden

LORENCE - The three children of Cosimo III, the last of the Medicis, were the decadent end of a 400-yearold line that defined the culture of the Western world. The eldest, Ferdinando III, died young, of syphilis he contracted at the carnival in Venice; his brother Gian Gastone devoted himself to wine and gluttony. If it weren't for their sister, Anna Maria Ludovica, the world would have a much less noble memory of the Medicis.

Anna Maria Ludovica died childless and a widow in 1743. But she had the foresight and courage to will the Medici art collection in the Uffizi Gallery to the city of Florence - rather than to her German in-laws. the Habsburg-Lorraine dynasty, which acquired the rest of the Grand Duchy of Tuscany. The will pre-vented the collection from being taken to Vienna and dispersed, and enshrined the Medicis

• as the greatest of art patrons. The gallery that held the collection celebrates a milestone this weekend. Four hundred years ago, io 1581, Francesco I, Anna Maria Ludovica's great-uocle, turned the Uffizi into a museum. This makes it the oldest major museum in the world; it is also the most-visited museum in Italy, with its complete works of the Recaissance from Cimabue and Giotto to Leonardo and Raphael.

So perfect were the art and architecture of the Uffizi that even that most unscrupulous of collectors, Napoleon, respected its integrity. He saw the museum wheo he passed through io 1796, but, says the Uffizi's director, Luciano Berti, "the fact that it was public property and such an integral part of the city saved it from requisitioning by the French, to which the royal possessions at the Pitti Palace were subject-ed." The Medici Venus, the only work Napoleon transferred to the Louvre, was returned,

· In celebration of the 400th hirthday, Berti and his committee have set up a year of Uffizi exhibitioos and conferences. The first exhibition, "Self-Portraits by 20th-Century Artists." which opens this weekend, is only the third Uffizi showing of self-portraits. The first was that of the collection of Cardinal Leopoldo de Medici for the centennial in 1681, which in-cluded self-portraits of Rembrandt, Rubens and Velazquez. This year's new faces, includ-

The Vasari Corridor, now showing the Uffizi's self-portraits.

ing Chagall, Masson, Carra, Rauschenberg, Giorgio Morandi and Annigoni, bring the total up 10 more than 1,500. The self-portraits are on view in the Vasari Corridor, which straddles the Ponte Vecchio, and in the Sala Niobe.

The architecture of the Uffizi, from its conception by Giorgio Vasari in 1574 through its transformations until the present, is the subject of another exhibition in the church of San Pier Scheraggio, a medieval structure pre-served by the Medici architect in the walls of the Uffizi. More specialized is the exhibition on the restoration and preservation of paper, the first of its kind in the world, in the main gallery

In June, there will be a general conference on art restoration focused oo Botticelli's "Pri mavera," restored for the occasion. It will deal with the myriad of restoration techniques developed since the Florence flood of 1966. On view for the first time since the deluge will be Andrea del Sarto's "Last Supper" in the for-mer convent of San Salvi in Vallombrosa.

Two international conferences, in May and in September, will discuss the problems of the 20th-century museum: trying to be all things to all people, tourists and scholars alike. A distinctive feature of the Uffizi is the fact

Largest S&L in U.S. Merges With 3 Others

From Agency Dispatches

WASHINGTON — The Federal Home Loan Bank Board on Friday announced the merger of the largest U.S. savings and loan with three ailing savings and loans from other states.

Home Savings of America — known previously as Home Savings of Los Angeles — now has assets of \$13.8 billion. It absorbed Security Federal Savings and Loan of Sikeston, Mo.; Hamiltonian Federal Savings and Loan of Ladue, Mo.; and Southern Federal Savings and Loan countries. of Pompano Beach, Fla. The three institutions have combined assets of ÷., about \$930 million and 29 branches.

The merger was the fourth interstate combination engineered by the bank board this year and involves e guarantee against real estate losses provided by federal insurance funds. Under the merger agreement, Home Savings acquires all the assets and liabilities of the three merged associations.

Burmah Oil Expected to Try Takeover of Croda Renters

He said he expected only about \$2.6 billion to be available for the LONDON --- Burmah Oil is expected to make a full bid for Croda IDA in this fiscal year. International, a chemical processing firm in which it bought a 14.99-percent stake early Friday, market sources said.

Croda chairman Frederick Wood said he expected Burmah to make a takeover bid at around the 70 pence a share Burma paid Friday. Later, Croda advised shareholders against selling shares to Burmah. Market sources said an offer could come any time.

Croda shares Friday were trading well above Thursday's close of 43%. The company had issued ordinary capital of 106 million shares at the end of last year. It showed a 1980 pretax profit of £7.4 million on sales of £276 million.

Aid Plan for Laker Reportedly Devised

Reuters

LONDON - A short-term aid package involving aircraft sales, possible fare increases and route reductions has been devised to help Laker Airways out of its cash crisis, banking sources said. The proposal was discussed Thursday at a meeting chaired by the

Bank of England, but not all the details have been agreed, the sources said. The plan also proposes that the manufacturers of Laker's planes assume part of the risk for the expected losses from the plane sales.

Bankers said the discussions included plans for Laker to sell at least two Airbuses and one DC-10 in the oext several months. McDonnell Douglas is willing to shoulder some of the potential loss of selling planes on a declining market, the sources said, but Airbus Industrie has been unwilling to assume any additional risk.

estimated the bank's total borrow-ing in financial markets may exceed \$8 billion this year and reach more than \$9 billion in 1983. Efforts will be heightened to boost the role of the private sector in development, he said.

Polish Crisis Stirs Coal Shares

By George Anders

NEW YORK - The declaration of martial law in Poland is sending the stock prices of coal com-panies surging as the country's crisis is jeopardiz-ing Warsaw's shipments to Western Europe and providing new markets for U.S. coal companies.

Poland has been a major supplier for the European Economic Community, shipping 15.5 mil-lion metric tons of coal in 1979. That was second to South Africa's exports.

Even though Poland's exports have dwindled to an 8-million-ton rate this year, a total cutoff "would considerably change Western Europe's long-term importing," said Mark Coehn, an ana-lyst for Kidder Peabody & Co. If the EEC's economy recovers enough to draw down coal stock-piles, he added, U.S. suppliers "would probably get the bulk of Europe's incremental oeeds,"

Yet analysts are far from ballish about U.S. coal companies. They're coming off three or four very good months, and things are starting to roll said Jack Kawa, an analyst for Dean over. Witter Reynolds Inc. "Prices are weakening, demand is weakening, and the whole litany indicates that 1982 won't be a very good year."

While "the export situation is crucial for East Coast coal companies," Mr. Kawa said he expects gains overseas to be offset by a weak domestic economy, particularly in the steel sector, a major coal user.

Of particular concern to analyts is the coal group's price run-up since the stock market's late September low. Eastern Gas & Fuel has gained more than 30 percent from its Sept. 28 quote. Pittston has shown a similar rise. In contrast, the Dow Jones industrial average is up about 6 per-

Eastern Gas trades at 10 times current pershare earnings and seven times Dean Witter's 1982 profit forecast. Most of the other coal producers trade at still higher multiples, partly be-cause a strike last spring depressed profits. The S&P 500, meanwhile, carries a price-earnings multiple of 8.

Mr. Cohen is not enthusiastic about any of the coal stocks for the short term, though he forecast that over the longer haul, "pure," undiversified coal companies, such as Westmoreland Coal (over-the-counter), should do well. Furthermore, Mr. Cohen said that although Po-

land "bears watching very closely," it is not clear whether its coal exports will dry up. "So far, the government has been able to crack the resistance," he said.

If Western Enrope does turn to the United States for more coal exports, the whole U.S. industry would benefit slightly at first, Mr. Cohen said, Later, though, be would look for particular

producers to line up major contracts. Mr. Kawa said be is "very choosy" about these stocks, with none warranting a "buy" and only MAPCO rated a "buy-hold."

"These stocks trade more on psychological factors than on fundamentals," such as carnings prospects, he said. In recent years, Mr. Kawa said, coal stocks "went wild" in early 1979 after the Three Mile Island reactor accident in Pennsylvania clouded the ouclear power-industry's future. The coal group also did very well when oil prices leapt and when Seagram expressed an interest in

Conoco's coal properties, be added. "You have to buy these stocks when investor sentiment is negative and sell when psychology pushes them up," Mr. Kawa maintained. "Most investors don't realize what a tough business coal

U.S. Forecasting 5.4% Fall in GNP

From Agency Dispatches WASHINGTON --- The U.S.

economy is receding in the current quarter at the fastest pace since the necord quarterly contraction in 1980, despite revised figures show-ing that the third quarter's gross oational product expanded at e annual rate of 1.4 percent, the gov-crument reported Friday. The Commerce Department's

"flash" estimate, compiled before the three-month period ends Dec. 31, shows that the inflacion-adjusted GNP — the value of all goods and services — will fall at an annual rate of 5.4 percent in the fourth

quarter. "The Bureau of Economic Analysis projects that real GNP will be down substantially in the current quarter," said Robert Dederick, an sistant secretary of commerce. "This is not just an automobile and housing phenomenon. It's rather widespread." Commerce officials said the

GNP drop could reach 7 percent if December's production figures are as weak as they appear so far. The record 9.6-percent drop occurred in the second quarter of last year.

Inflation Index

The report also raised a measure of inflation for the third quarter, saying the GNP implicit price def-lator rose at an annual rate of 9.9 percent, the highest of the year, rather than 9.5 percent. The index measures price changes throughout

the economy. The upward revision in the third-quarter GNP was the second and attributed mainly to an unexpected buildup in inventories and stronger net exports, the depart-mate in October, it said the GNP

Europe, Montreal Exchanges Plan Link on Gold Options

From Agency Dispatches AMSTERDAM - The European Options Exchange and the Montreal Stock Exchange have agreed tentatively to establish an international gold options market, house organization had been completely owned by the European Options Exchange. Actual clearing activities will be in Amsterdam. the European exchange said here Friday.

The market will function 12 hours a day, starting at 10:30 a.m. Dutch time, which is 4:30 a.m. in

Montreal. It will provide a common mar-ket in gold options, enabling invesoptions market of the Montreal extors to buy a gold option in Enchange, which opens then (10:30 a.m. local time). Earlier this week, the govern-ment reported industrial producoon fell 2.1 percent at factories and mines and that factories were operating at less than three-fourths of full capacity in November.

The "flash" or preliminary fig-ure is distributed internally at the Commerce Department and used as the basis for bodget and deficit forecasts.

Economists inside and outside the government have been lower-ing their estimates of fourth-quar-ter GNP, with some private econo-mists formers in the private economists forecasting a drop by as much as 8 percent.

The estimate provides oew evi-dence that the Reagan administra-tion is bracing for a worse econom-ie downturn than the "slight and I hope short recession" President Reagan declared several months

Administration officials bave said the economy probably will not begin a real recovery until next spring and summer.

The Commerce Department also said after-tax corporate profits for the third quarter were up 2.4 percent, instead of the originally re-

From Agency Dispatches NEW YORK — Prices on the New York Stock Exchange posted modest gains Friday in fairly ac-tive trading and analysts said the market may have started its traditional year-end rally.

After the market closed, the Federal Reserve reported that the broader definition of the U.S. money supply, known as the MI-B rose \$800 million to \$440.6 billion in week ended Dec. 9. The nar-rower M-IA fell \$2.1 billion to \$362.4 billion.

Observers had been hopeful the Fed would report a slowdown in the growth of the money supply. Last week's report of a \$4-billion surge halted a decline in interest

rates. The Dow Jones industrial average gained 5.23 points to close at 875.76. Advances led declines, 950 to 560, as the NYSE inmover swelled to about 51 millioo shares

which has a 40-percent sharehold iog in Saudi American Bank. Timothy M. Kelley replaces Mr. Botjer Citibank's senior officer for sub-Saharan Africa.

GM Cuts Benefits of Salaried U.S. Employees

The Associated Press DETROIT — General Motors said Friday it is cutting benefits country to explain the cuts. for its 138,000 salaried employees in the United States, a move that comes as the No. I automaker tries to persuade the United Auto

Workers union to roll back its current contract. GM disclosed it is eliminating paid personal holidays, cutting va-cation time by 50 percent and re-ducing cost-of-living allowance payments for salaried workers.

The company would not say how much money will be saved by the cuts. Europe, John R. Marsden vice

Follows Ford Move

A decision is expected Monday on whether the UAW's GM and Ford Motor Co. bargaining coun-cils will meet to consider reopening current contracts. The union has said that the companies' white-collar workers must make sacrifices before hourly workers will agree to concessions.

Without comment Friday, GM released to the news media copies of a notice to salaried employees outlining the white-collar reduc-tions. The notice was released

GM's announcement follows by one week a Ford announcement

that it was making similar reductions in fringe benefits for nearly 63,000 salaried workers in the are being eliminated, United States. The benefit cuts announced by Ford also included reduced vacation time and restrictions in the way of cost-of-living payments are made.

GM and Ford have been demanding since last spring that the union return to the bargaining table to negotiate labor cost reduc tions. Both companies say they need such cuts to become competitive with the flood of imports, which have captured roughly one-quarter of the U.S. market.

Last week, the UAW's 26-member executive board reversed itself and lifted a ban on renegotiating current contracts. Citing the sad financial shape of the auto industry, the board agreed to allow bargain-ing councils at individual compa-

is trimming its white-collar staff by 7 percent, about 13,000 employees council voted Thursday to seek additional details on the company's proposal for investing \$150 million worldwide. GM has acknowledged that it is of employce wages in the automaker's product development pro-gram. The money is to be repaid in several years with interest. cutting its salaried workforce, but has not confirmed how many jobs

Union Asks Details

Meanwhile, UAW leaders met Friday with officials from Ameridepartment, said that AMC Presi-dent Paul Tippett and other com-pany officials agreed to provide can Motors Corp. to begin a factfinding process that will determine data the union wants. Staffs of the whether the union's contracts with union and the company will meet

AMC will be reopened. The union's AMC bargaining in the next several weeks, said Mr. Maicrus.

U.K. Retail Prices Up 1.1% in Month

Zweig, unlike so many other modern artists who looked too long into the abyss, killing the self did not improve the reputation or increase the royal-ties. The world promptly forgot him.

The Nazis who had driven Zweig into

exile seemed everywhere triumphant

and the idea of a humane European

internationalism for which he had

campaigned during most of his liter-

arently doomed.

Harmony Books, in association with Jonathan Cape of England and Fischer Verlag in Germany, seeks for Zweig the sort of rehabilitation Hermann Hesse has, alas, enjoyed since the 1960s. "The Royal Game," a collection of five long stories, is published on what would have been Zweig's 100th birthday; his only novel, "Beware of Pity," will appear next fall. No plans have yet been announced for his solid biography of Erasmus, the only previous book of his I have read. John Fowles contributes an introduction to "The Royal Game" which is extravagant, although better written than most of the pages that follow. Two of these stories -- "The Burning Secret," about a little boy tor-mented by his mother's secuality, and "Fear," about an adulteress being blackmailed ---- were published prior to World War I. As period pieces, they are tolerable. We slip in and out of the minds of members of the

Viennese bourgeoisie. They moon around a lot, being ecstatic and queasy. Their moons shine occasionally ou dark corners of a sick culture, and that is fine. It was a time and place, remember, of an almost libidinal seething of the culture, as if monstrous longings were sooo to be hatched. Zweig lets these people off too easily, but he seems to have been in the habit of wish fulfillment.

"Amok" and "Letter from an Unknown Woman" were published in 1922. This was two years before he met Freud, but "Letter" - in which a successful writer must cope with the life and death of a woman he should have loved ---- indicates some acquaintance with psychoanalytic theory; the dead woman is probably his mother, and the dead child the writer himself. Bul 1922 was long after he should have become acquainted with Joseph Conrad, thus influencing "Amok," in which a disgraced doctor serving the Dutch in the Orient meets the heart of darkness and gets drunk. Both stories propose extreme situations, divorced from history and too full of convenient afflatus. At least the doctor suffers; the writer, on the other-hand, is made "conscious of undying love" when "something" strikes "a chord in his innermost soul."

Strong Originality

"The Royal Game," the title story, was written four months before Zweig's suicide. It is strong and origi-nal and his best argument for staying at work. We are on board a ship from New York to Buenos Aires and meet Czentovic, a peasant chess champion unburdened with the slightest idea that Rembrandt, Beethoven, Dante or Napoleon ever even lived." Czentovic, who can't imagine the game of which be is a master without the physical presence of a board and pieces, is drawn into a competition with Dr. B.,

---- -- -.

1

sanity and life again. We come to feel that chess itself is something monstrous, that each piece is in a way crippled, that abstractions are totalitarian, that logic imprisons. Black is black, and so is white. These shadows consume.

ments with various enemies of the

Reich were under investigation. He

saved his sanity by playing chess against himself. He saved his life by

suffering a nervous breakdown. In

It is, of course, unlikely the Gestapo would have released Dr. B., and that, violating all his promises to him-self, he would risk the game again, and that, having risked it, he could so easily retire. But the boy in "The Burning Secret" gets his mother back; the adulteress in "Fear" finds her husband still loves her (although most readers will despise him); the writer in "Letter From an Unknown Woman" reaches out "in spirit towards the un-scen presence" and hears "distant music"; and even the doctor in "Amok" salvages his honor, for what little it is worth. Zweig may have been a moder-nist, but he liked gundrops.

Comforting Combinations

Each story has the authority of a writer who is used to being read; he takes us into his confidence, and assumes we will trust him, and we do, impressed by his knowledgeability and good manners. This combination of craft and faith is comforting. Each story is also mostly tell and not much show; we are told what we need to know, as if by sermon, and so all that is extreme is flattened. We weren't there; we've merely heard about it second hand, listening to a high-minded radio report on remote troubles.

This is certainly superior to the weepy mysticism and adolescent atti-tudinizing of a Hesse. But by the time Zweig sat down to write these stories, Thomas Mann had already written "Tonio Kröger" and "Death in Ven-ice," James Joyce had written "Dub-liners," and Flaubert, Melville, Chekhov, Dostoevsky, Tolstoy and other masters of the modern short novel were already dead. Perhaps "Beware of Pity" (1939) will brighten the picture.

Oueen Victoria Album Auctioned for \$9,120

The Associated Press

LONDON ---- A book of condolences Queen Victoria compiled to comfort herself after the death of her husband, Prince Albert, sold for \$9,120 Thursday, Sotheby's auction house said. London antique booksell-er Bernard Quaritch bought the royal "Album Consolativum," which includes entries in the queen's own hand.

The two-volume album, started a month after Prince Albert's death in December 1861, covers a period of 20 years. It includes a quotation from one of Albert's own letters in which he advised Victoria to try to master her sadness at the loss of her mother, Princess Victoria.

4 Playoff Positions Still Uncertain **As NFL Goes Into Final Weekend**

هجذا من الإجل

By William N. Wallace

New York Times Service NEW YORK - Four of the National Football Leagues 10 playoff positions are still to be filled, and 10 teams remain in contention as the 16-game regular seasoo ends this weekend.

The Cowboys, Dolphins and Bills have all qualified for the playoffs, Dallas as a divisional champion in the National Confer-ence; Miami and Buffalo for wildcard berths at the least in the

American Conference. Other teams already in the playoffs are the San Francisco 49ers, National Conference West champions: the Philadelphia Ea-gles, with a National Conference wild-card berth, and the Bengals, American Conference Central champions.

Previews of all games follow (records in parentheses; betting lines from Harrah's Reno Sports Book). NATIONAL CONFERENCE

Dallas (12-3) at Giants (8-7) ---Once more it will be ap to the Gi-ant defense to produce turnovers or even the touchdowns in Saturday'a contest. Although its defense has given up almost 18 points a game, this Cowboy team has turned ont to be one of the better ones, a Super Bowl contender. Betting line; Dallas by 3. Tampa Bay (8-7) at Detroit (8-7)

- The Buccaneers won the earlier game, 28-10, on Oct. 4. The Lions have won four of their last five, the Buccaneers three of their last four.

Betting line: Detroit by 5¹/₂. St. Louis (7-8) at Philadelphia (9-6) — The Eagles failed to score a touchdown in the second halves of their last four games, all of which they lost, Betting line: Philadonation because he wanted peace and peace of mind for the players."

San Francisco (12-3) at New Orleans (4-11) - The 49ers' motivation to win is assurance of having the home field should they play in the conference championship game Jan. 10, against the Cowboys or whomever. The Cowboys can-not get the home field for the NFC Antornon, Den Fouts, SD D.White, Dal Montona, SF Bradshaw, Pt championship game against the 49ers should that game occur because the 49ers routed the Cowboys 45-14 earlier this year. Betting line: San Francisco by 7. Washington (7-8) at Los Angeles Dickey. GB Zorn, Sea Todd, NYJ

deficit in the second set and then won a final-set tie-break, 7-5, to over-A., come Tracy Austin Thursday night and advance with Martina Navratilova to the semifinals of the Toyota tennis championships.

Calling the three hour, 18 minute marathon "one of the most physically grueling matches I've ever played," Lloyd rallied for a 4-6, 6-4, 7-6 victory over Austin, the only woman who owns a career lead over her, at 8.7

"I was down a set and 4-2 and didn't give up mentally," Lloyd said. "I hung in there. Maybe a lot of people think psychologically she had the advantage over me and maybe at times 1 felt the same. Of all the players besides myself, she is the toughest mentally. You can see it in her."

By contrast, Navratilova had a rather easy time in disposing of Andrea Jaeger, 6-2, 6-3. Both Austin and Jaeger, who are 1-1 in this round-robin format, still have a chance to reach the semifinals.

On Friday night, Austin was to play Mima Jausovec and Jacger was to meet Pam Shriver. Jausovec remained in contention by beating Hana Mandlikova, 6-3, 6-3, in Thursday's first match and Shriver evened her record at 1-1 when she outlasted Virginia Ruzici, 6-2, 4-6, 6-2. The Shriver-Ruzici match ended at 1:42 a.m. with only a handful of specta-; tors left in the arena.

ter Johnson. That was the first elass enrolled, and the tabulation always comes to mind when somebody claims a popish infallibility for inmates of the press box.

On more than one occasion when the Veterans Committee has conferred immortality on some-body the writers passed up for 15 years, some of the brethren have raised a cry of "cronyism," insist-ing that 500 or so baseball writers

couldn't be wrong for 15 years. The answer is that anybody who could be wrong on Cobb or Ruth

could be wrong about anything for any period. Getting back to Aaron and Rob-inson: The first would qualify for instant election if he had never ac-

Delays Retirement pires.

United Press International

LONDON --- Carlos Reutemann of Argentina, runner-up in the 1981 World Formula One driving championship, has changed his mind about retiring and will drive for the British-based TAG Williams team for the third consecutive year.

The 39-year-old South American, who lives in Cap Ferrat, France, will be the No. 1 driver for Williams, succeeding Alan Jones of Australia, who retired. Keke Rosberg of Finland will be the second driver on the team.

Announcing the lineup for the coming season, team manager Frank Williams said: "We are most encouraged that Carlos has decided not to retire after all and to continue with the team for a third year. We are equally happy to secure the services of Keke with whom we have recently conducted

a major test program. We are con-vinced that, like Carlos, he will soon become a regular winner. Both Keke's attitude and his speed have impressed us enormously Reutemann, the oldest driver on

Art Buchwald Yes, Virginia, There Is a Santa Stockman

WASHINGTON - It was Christmas in the White House. Santa Claus, who looked like a very fat David Stockman, sat in his chair tearing up letters from children all over the country. "Ev-cryone wants a free lunch," he said angrily to one of his assistants. A Cabinet officer came up to

Santa and got up on his lap. "What do you

want, and make it short?" Santa said.

"I'm the head of HUD and I don't want anything new. I was wondering if you could restore my rent subsidies for Buchwald.

the poor and let me have a few dollars to provide heating oil for the old and indigent who hardly have

roofs over their heads." "Ho, ho, ho," Santa said. "I know all about you. You've been a very naughty boy this year. I told. you to cut out all the frills and waste in your department and all you could come up with was a few billion dollars. You deserve a spanking. Don't come back until you sell all the public housing this country is stuck with. Who's next?

* * *

"The secretary of human re-sources, Santa," the assistant said. "Don't get up on my lap, you lonsy kid. What do you want for Christmas?"

"I'm not asking for much, Santa. But please don't take away my Head Start program and medical research funds

"Do you think Santa Claus is made of money? You're lucky you're still going to have Medicare checks to send out. If I had my way, I'd dump them, too." "But you promised there would

be a safety net for people who were down and out.'

"I make a lot of promises I can't keep. That's why kids, when they grow up, stop believing in Santa Claus. Now beat it before I start hacking away at your Social Security benefits."

Santa, this is the ebairman of the largest steel company in Amer-

"You can get up on my lap."

boy, and I don't want anything." You must want something "Well, there's one thing I kinda would like."

"What's that?" "Another tax loopbole, so I won't have to pay any taxes this

"And are you going to build a new steel plant with your tax loopbole?"

"No, I want to buy the Marathon oil company with it. Then I won't have to worry about making any more steel." "That's a sensible thing to want

for Christmas. Give Santa a kiss and I'll see you get it." "I love you, Santa." * * *

Santa said to his assistant, "I wish all the kids were as well behaved as that one. Who's next?" "Santa, I'm a governor from a

and very sweet coffee).

bother me.

award

big Eastern state, and I was supposed to take care of all the people the federal government was responsible for, and you were going to provide me with block grants to do the job. Now you've cut off my block grants. What am I supposed to do with the people?"

"That's your problem, kid. If there is one thing Santa Claus can't stand it's a governor who wants federal money to do his job. Get out of my sight. You make me

sick. Next. "Santa, I'm the secretary of education and I need -"Save your breath. I don't even care to hear what you want for

Christmas. You're a cute fellow. What's your name?

"Caspar Weinberger, and I'm the secretary of defense." "And what do you want for Christmas?" "I want planes, and missiles, and submarines, and aircraft carriers and guns and tanks and an MX

missile system, and germ warfare shells, and a trillion dollars." "Ho, ho, ho. That's a lot of toys, You're going to empty out my

bag." "I'm going to bold my breath until I get them." After Caspar stomped away, the ssistant said, "He really got to

"It's a weakness of mine. I can't stand to see a little secretary of de-

fense cry." C 1091 Las

Hostilities'

mal Herald Tribune chiatrist who becomes obsessed ONDON - Dudley Moore is with a patient in Marshal Brickvery small and cute as a 'man's "Valium." In "Arthur" be was a rich and amiable drunk bug's ear, with the softest brown with Sir John Gielgud giving eyes since Elsie the Cow. He has, rather suddenly, become such a what Moore describes as a very jolly and saucy performance as his butler. "The great thing about big movie star that be earns more than \$1 million a picture and has Gielgud is be plays comedy as if it were tragedy. He plays the buta status symbol called an entertainment lawyer whose function

is not, as one might suppose, to sit around and strum the banjo ler as if it were Lear. Like most English people, Gielbut to unravel especially tricky deals. At an age where be should gud was familiar with Moore's early work. "He knew it from be grapping with mid-life crises, Moore is the subject of publicity 1960. Nobody should bave known me from 1960."

releases about his lifestyle and al-After coming down from Oxleged eating habits (one meal a ford, where he held an organ day of butterfisb, Brussels sprouts, broccoli, Chinese peas, scholarship, Moore wrote theater, film and ballet scores, then seaweed concentrate, papaya, figs helped create the entertainment that helped create the '60s, "Beyond the Fringe."

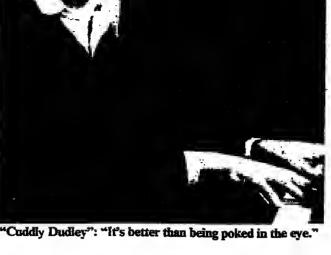

"People are very pressed for new things to write, what you eat is very much researched," Moore "I was used as the nice affable working class tag of the thing. I felt that but it was really my own explains. "I'm very relaxed about it, it's sort of silly but it doesn't choice because I didn't have much more to contribute at that In a hotel suite decorated with stage. We each had two solo numgrand piano and the bigges1 bers, mine were musical. I hardly fruit hamper since the Berengaria stopped plying the Atlantic, Dudcontributed a squeak to the sketches because they dealt in by Moore is indeed relaxed deareas where I had no knowledge spite a work schedule that in-cludes making two films back to or authority or interest. The ver-biage was theirs. My own atback and giving a recital at the Metropolitan Museum of Art next month of Mozart, Beethotempts at humor were very unliterary, unpolitical, unsatirical." ven, Dehus, Bartok and Berg.

Moore's contributions became more active during the years of doing "Dud and Pete" with Peter Even his longstanding nick-name of "Cuddly Dudley" no Cook on TV and the stage. Dud longer makes his stomach lurch. and Pete were ordinary blokes: "It may cause a small spasm but "The day-to-day relations of peo-ple, I work on that level," Moore it's better that being poked in the eye with a sharp stick," he points Savs.

17 Years in Therapy

Dudley Moore, formerly a jazz While doing his double act with Cook, Moore started psy-chotherany and realized that pianist from the English working class suburb of Dagenham, be-came a Hollywood star when George Segai defected from "10" chotherapy and realized that from childhood he had felt obliged to make people laugh in order to survive, "I resented havand when his newest release, "Arthur," now coming out in Europe, became a huge U.S. hit. At the time of "10" be says, be wasn't exactly a household name: "I ing had to do that and I didn't want to make people laugh any-more, which was very hard for Pewasn't even a basement name." ter. I wanted to get to the bottom This year, after 20 years in show of it. Of couse there is no botbiz, be got a discovery-of-the-year tom,"

Moore has worn out nearly as many couches as Woody Allen, In February be will be a psy-

having been in therapy since 1964. It has, be says, changed his life though he knows it s a subject no one wants to hear about.

"It's constantly enlightening, it's constantly difficult. It's education. Unfortunately it's called pyschotherapy." Moore is just about the only

English actor who is not cast in "English" roles. "I think it's because I've set up a kind of con-vention for myself where I speak this sort of peculiar way. I can't imagine myself playing an American Marine bui I can be a psychoanalyst or a writer. My voice is a very uneasy mixture of suburban Dagenham and Oxford. The vowels creak and groan in my mouth."

The accent doesn't much matter because Moore's comedy is not realistic. "There is a basic unreality about the characters I play. In '10' the obsessiveness lets you get into unreal feelings, Ar-thur is outrageous, the psychia-trist I play in "Valinm" is totally obsessed. I think that's one of the factors in comedy -- you feel the fear emanating from the skin.

"Comedy is the suppression of the truth, the denial of it, while therapy is the opposite. The barely hidden panics, the desires, the

guilt. I hope that I don't get so relaxed I don't feel those things any more. I don't know what I'd do - play the flute in fields of corn."

Moore learned early on that it's a battlefield: that he is so beguiling is a triumph of mind over

"I had, I have, a club foot. People used to gravitate to me as to a wounded dog. The day I wore long pants was heaven for me. I was frightened of the outside world. I was frightened of the inside world.

"From the time I was 13 acting was important as a survival mechanism, I used it as a defense against teasing and bullying. I en-joyed the relief of not being ashed up every lunch hour. I did humor to protect myself 24 hours a day. So by the time I went to Oxford at the age of 18 it was important to me to continue on the stage. Being an organist in a church didn't have the same rewards on the applause meter." Being high up there on the ap-plause meter brings security, and something more. "Laughing is a useful mechanism for defining people's hostilities," Moore says, "and for getting mine in without their knowing it." PEOPLE: Cher Awaraea Di ou, Cher Awarded \$750,000

A federal judge in Los Angeles ordered freelance writer Free Robbins, the weekly tablied The Star and Forum Magazine to pay more than \$750,000 to entertainer Cher in a breach of contract judgment. The entertainer had testified she agreed to an interview with Rob-bins with the understanding the article would be based on her rock band "Black Rose" and would appear in US magazine. But Cher said she didn't like the finished artiele because of its gossipy nature, and she convinced US editors not 10 publish Robbins' piece. Last March, however, the Robbins interview appeared in both The Star and Forum magazine. U.S. District Court Judge Manuel Real said Fo-rum showed a "blatant disregard of Cher's rights," while The Star was guilty of "a concious misstate-ment of fact" in claiming the article was exclusive. Real ordered that \$369,117 be paid to Cher by The Star, \$269,117 be paid by Fo-rum and \$100,000 by its owners, Penthouse magazine, and \$25,000 be paid by Robbins.

New York's St. Patrick's Day parade will, after all, be held on St. Patrick's Day. Six days after an-nouncing that the 220-year-old march, the city's biggest parade, would be moved from March 17 to the Sunday before the holiday cach year, the parade chairman an-nounced that it had been restored to the traditional date. "It's the only day for the New York Irish." said James J. Comerford. "Marching on a Sunday is for the villages outside the city." Comerford, a re-tired judge, insisted that both decisions had been made by the parade committee. According to committee members, however, the original shift had been dictated by the Ar-chdiocese of New York, which was troubled and embarrassed at the

drinking and rowdiness that had developed around the edges of the march up Fifth Avenue in recent years. The deputy police commis-sioner for public affairs, Alice McGillion, said that the police would be much tougher next year.

* * * Christmas music makes people more vengeful, a psychology professor says. "Several years ago a lo-cal prosecutor in Des Moines, Iowa, banned Christmas music from the courthouse," said Michael Enzle, a University of Alberta psychology professor. "He thought it put people in a good

to render barsh judgments. That idea fit in very nicely with the studies we were doing, so we thought Wait until around Christmas and simulate what the pro-secutor was saying." Enzle put 26 people into rooms much like the waiting rooms found in many offices. "In half the cases, Christmas music in the typical Muzak style music in the typical market sign was played from speakers in the ceiling," be said. "In the other half, nothing was played. After about 10 minutes they listened to a radio newscast that described a murder. The alleged criminal was found guilty by a jury and was to be sentenced in a week. We asked people what an approriate sentence would be, anything from zero to 30 years. The average sentence recommended by the group that listened to the Christmas music was II years." Those who didn't listen to the music recommended sentences averaging five years, the professor said Love songs used to be so simple. Either the gul wanted the guy or the guy wanted the girl. But Josie Cotton, granddaughter of Texas oil tycoon Clinton W. losey, has found a new twist to l'amour in her new song. The punk tune has become the No. 1 all-time requested necord on KROQ-FM. Los Angeles' largest "new wave-Top 40" station. The song tells of a girl's struggle to seduce the boy she loves. Lyrics include: "I saw you today, boy, walking with those gay boys, God, it fmrt me so, and now I gotta know, Johnay are you

Maturity is apparently one of the ig fashion statements of the day. Eight of the Ten Best Coilfured Women selected by the Helene-Curtis Guild of Professional Hair-stylists are women over 30. The 1981 winners are U.S. first lady Nancy Reagan, entertainer Barbara Mandrell, actresses Jacqueline His-set, Joyce DeWitt, Morgan Fair-child, Linda Gray and Nastassia Kinski, model-actress Beverly Johnson, columnist Rona Barrett and Princess Diana. One of the most copied styles of the year was that of Princess Diana whose "peekaboo" bangs were said to provide a refuge for the shy young woman who found herself so prominently in the public eye, Kinski, who starred in Roman Polanski's "Tess," may have been the one to change her hairstyle the-most during the year, going from straight, waist-length hair to an inch-long "French schoolboy"
